Performance data quoted represents past performance. Past performance is no guarantee of future results. Due to market volatility, current performance may be lower or higher than the figures shown. The investment return and the Accumulation Value of your policy will fluctuate so that a policy, when surrendered may be worth more or less than the premium payment(s). For current to the most recent month-end performance information, please call 1-800-598-2019 or visit [www.newyorklife.com](http://www.newyorklife.com).

All performance reflects the percentage change for the period shown with capital gains and dividends reinvested and includes an annualized Separate Account Expense Charge of 1.40%. A policy service charge, equal to the lesser of \$30 or 2% of the Accumulation Value of the policy, is not included in these charges, but will be deducted each year from the policy's Accumulation Value on the policy anniversary and upon surrender if on that date the Accumulation Value is less than \$20,000. The performance shown, therefore, would be slightly lower if your policy's Accumulation Value is less than \$20,000. Performance "Assuming No Surrender" does not reflect the deduction of Surrender Charge(s) (SC). If reflected, the performance would be reduced. Performance "Assuming Surrender" reflects the maximum SC under the policy. The maximum SC for each premium payment is 7%, declining to 4% by the 6th year after that premium payment has been in the policy, with no charge thereafter. Withdrawals and surrenders may be taxable transactions, and prior to age 59½, may be subject to a 10% IRS penalty (the penalty tax is increased to 25% in the case of a distribution from a SIMPLE IRA within the first two years of your participation in the SIMPLE IRA plan). The Investment Divisions offered through the New York Life Variable Annuity and described herein are different from mutual funds that may have similar names but are available directly to the general public. Investment results may differ.

*"It's not timing the market...it's time in the market"*

Performance data quoted represents past performance. Past performance is no guarantee of future results. Due to market volatility, current performance may be lower or higher than the figures shown. The investment return and the Accumulation Value of your policy will fluctuate so that a policy, when surrendered may be worth more or less than the premium payment(s). For current to the most recent month-end performance information, please call 1-800-598-2019 or visit [www.newyorklife.com](http://www.newyorklife.com).

All performance reflects the percentage change for the period shown with capital gains and dividends reinvested and includes an annualized Separate Account Expense Charge of 1.40%. A policy service charge, equal to the lesser of \$30 or 2% of the Accumulation Value of the policy, is not included in these charges, but will be deducted each year from the policy's Accumulation Value on the policy anniversary and upon surrender if on that date the Accumulation Value is less than \$20,000. The performance shown, therefore, would be slightly lower if your policy's Accumulation Value is less than \$20,000. Performance "Assuming No Surrender" does not reflect the deduction of Surrender Charge(s) (SC). If reflected, the performance would be reduced. Performance "Assuming Surrender" reflects the maximum SC under the policy. The maximum SC for each premium payment is 7%, declining to 4% by the 6th year after that premium payment has been in the policy, with no charge thereafter. Withdrawals and surrenders may be taxable transactions, and prior to age 59½, may be subject to a 10% IRS penalty (the penalty tax is increased to 25% in the case of a distribution from a SIMPLE IRA within the first two years of your participation in the SIMPLE IRA plan). The Investment Divisions offered through the New York Life Variable Annuity and described herein are different from mutual funds that may have similar names but are available directly to the general public. Investment results may differ.
