<sup>3</sup> Risk Tolerances are assigned by New York Life. The Investment Divisions are grouped by risk classifications that reflect performance volatility based on Lipper classifications as of December 31, 2010. Lipper is a widely used independent research firm, which ranks mutual funds and other investment companies by overall performance, investment objectives and assets.

<sup>4</sup> Certain Portfolios existed prior to the date that they were added as Investment Divisions of the Separate Account. The performance for the MainStay VP Series fund, Inc. Service class portfolios are based on the Initial Class Portfolio (where applicable). The performance for all other Investment Divisions is based on the Portfolio Inception Date reflected in the performance summary. The hypothetical performance of the Investment Divisions was derived from the performance of the corresponding Portfolio, modified to reflect Separate Account and Fund annual expenses as if the policy had been available during the periods shown.

<sup>5</sup> Performance is calculated as of the initial date a deposit was received in the Investment Division.

<sup>9</sup> An investment in the MainStay VP Cash Management Portfolio is neither insured nor guaranteed by the Federal Deposit Insurance Corporation or any other government agency and there can be no assurance that the Portfolio will be able to maintain a stable net asset value. Although the Portfolio seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the Portfolio. The current yield as of December 31, 2011 more closely reflects the Portfolio's earnings than the total return figures shown.

Historically, certain fees have been assumed or reduced by some of the portfolios. Had these expenses not been assumed or reduced, the total return for those Investment Divisions would have been lower.

The New York Life Premium Plus Variable Annuity is a flexible premium deferred annuity issued by NYLIAC. Under this policy, we will apply a credit to premiums paid in a percentage amount according to the credit rate schedule then in effect. Policies with a premium Credit may have higher fees and expenses, and may have longer surrender charge periods than policies that do not provide the Credit feature. There may be circumstances in which the purchase of a New York Life Premium Plus Variable Annuity is less advantageous than the purchase of another New York Life variable annuity which may have lower fees but no credit. This may be the case, for example, if you intended to make fewer and smaller payments into the contract, or if you anticipate retaining the contract for a significant time beyond the surrender charge period.

Performance data quoted is past performance. Past performance is no guarantee of future results. Due to market volatility, current performance may be lower or higher than the figures shown. The investment return and the accumulation value of your policy will fluctuate so that a policy, when surrendered, may be worth more or less than the premium payments. For current to the most recent month-end performance information, please call 1-800-598-2019 or visit www.newyorklife.com.

All performance reflects the percentage change for the period shown with capital gains and dividends reinvested and includes an annualized Separate Account Expense Charge of 1.60%. A policy service charge of \$30 is not included in these charges, but will be deducted each year from the policy's Accumulation Value on the policy anniversary and upon surrender of the policy if on that date the Accumulation Value is below \$100,000. The performance shown, therefore, would be slightly lower if your policy's Accumulation Value is less than \$100,000.

Non-Standardized Performance "Assuming No Surrender" reflects the Separate Account Expense Charge, but does not reflect the deduction of Surrender Charge(s) (SC), the policy service charge or charges for any optional riders. These charges if reflected, would reduce the performance shown. Performance "Assuming Surrender" reflects the maximum SC. The maximum SC for each payment is 8%, declining to 3% by the 8th year after that premium payment has been in the policy, with no charge thereafter. This performance also reflects the Separate Account Expense Charge, but does not reflect the policy service charge or charges for any optional riders. These charges if reflected, would reduce the performance shown.

Withdrawals and surrenders may be taxable transactions, and prior to 59½, may be subject to a 10% IRS penalty (the penalty tax is increased to 25% in the case of a distribution from a SIMPLE IRA within the first two years of your participation in a SIMPLE IRA plan). The Investment Divisions offered through the New York Life Premium Plus Variable Annuity and described herein are different from mutual funds that may have similar names but are available directly to the public. Performance data quoted is past performance. Past performance is no guarantee of future results. Due to market volatility, current performance may be lower or higher than the figures shown. The investment return and the accumulation value of your policy will fluctuate so that a policy, when surrendered, may be worth more or less than the premium payments. For current to the most recent month-end performance information, please call 1-800-598-2019 or visit [www.newyorklife.com](http://www.newyorklife.com).

All performance reflects the percentage change for the period shown with capital gains and dividends reinvested and includes an annualized Separate Account Expense Charge of 1.60%. A policy service charge of \$30 is not included in these charges, but will be deducted each year from the policy's Accumulation Value on the policy anniversary and upon surrender of the policy if on that date the Accumulation Value is below \$100,000. The performance shown, therefore, would be slightly lower if your policy's Accumulation Value is less than \$100,000.

Non-Standardized Performance "Assuming No Surrender" reflects the Separate Account Expense Charge, but does not reflect the deduction of Surrender Charge(s) (SC), the policy service charge or charges for any optional riders. These charges if reflected, would reduce the performance shown. Performance "Assuming Surrender" reflects the maximum SC. The maximum SC for each payment is 8%, declining to 3% by the 8th year after that premium payment has been in the policy, with no charge thereafter. This performance also reflects the Separate Account Expense Charge, but does not reflect the policy service charge or charges for any optional riders. These charges if reflected, would reduce the performance shown.

Withdrawals and surrenders may be taxable transactions, and prior to 59½, may be subject to a 10% IRS penalty (the penalty tax is increased to 25% in the case of a distribution from a SIMPLE IRA within the first two years of your participation in a SIMPLE IRA plan).
