IRC Section 7702 Testing To qualify for favorable tax treatment, a life insurance policy must pass one of two tests as defined in IRC Section 7702 — the Guideline Premium Test or the Cash Value Accumulation Test.

Life Insurance Benefit Options

- **“Level”** — Provides a benefit equal to the policy’s face amount.
- **“Increasing”** — Provides a variable benefit equal to the sum of the face amount and cash value.
- **“Premium”** — Provides a variable benefit equal to the sum of the face amount and total premiums paid, less any partial surrenders.

Loan Amount¹ You may borrow any amount up to the loan value of your policy. This is equal to the cash surrender value less one monthly deduction charge, and any unpaid loan and accrued loan interest.

Loan Interest Rate 5%, payable in arrears

Interest Credited On Borrowed Cash Value Never less than 2% below the loan interest rate.

¹ Loans and/or partial surrenders will reduce the life insurance benefit and cash value and may be subject to income tax and a tax penalty if the policy is a modified endowment and the policyholder is not yet 59 ½.

Partial Surrenders¹

The minimum partial cash surrender amount is \$500. You must maintain at least \$500 of cash surrender value or an amount equal to two monthly deduction charges in your policy. A \$25 service charge will be applied to all partial surrenders. If the partial surrender results in a face amount reduction and your policy is a Guideline Premium Test policy, the guideline premium limits will be recalculated.

Monthly Per \$1,000 Face Amount Charge — This charge is specified in the policy contract and deducted from the policy's cash value each month in policy years two through five. It varies and is based on the policy face amount and duration, and the issue ages, genders and risk classes of the insureds.

Monthly Administration Fee⁴ — Deducted from the policy's cash value.

Current Fee: \$24 in policy years 1-20, and \$10 in policy years 21+

Guaranteed Maximum Fee: \$24 in all policy years

Estate Protection Rider⁵

Available for purchase with your policy, the Estate Protection rider provides extra protection in instances where the "contemplation of death rule" might be applied, and pays an additional life insurance benefit to the beneficiary if both insureds die before the fourth policy anniversary. The amount must be selected at issue and the maximum percentage is 122% of the base policy face amount.

² The Target Premium is the breakpoint amount that is used for determining premium charges.

³ New York and Texas illustrations do not reflect year 11+ current reductions.

⁴ For New York and Texas illustrations, the monthly administration fee is \$24 in all policy years.

⁵ Not available in all jurisdictions or on all policy types; state variations exist.
