1. Summary of Significant Accounting Policies

A. The accompanying financial statements of New York Life Insurance Company ("the Company") have been prepared using accounting practices prescribed by the New York State Department of Financial Services ("NYSDFS").

The NYSDFS recognizes only statutory accounting practices prescribed or permitted by the State of New York for determining and reporting the financial position and results of operations of an insurance company and for determining its solvency under New York State Insurance Law. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures Manual ("NAIC SAP") has been adopted as a component of prescribed practices by the State of New York. Prescribed statutory accounting practices include state laws and regulations. Permitted statutory accounting practices encompass accounting practices that are not prescribed; such practices differ from state to state, may differ from company to company within a state, and may change in the future. The Company has no permitted practices.

A reconciliation of the Company's net income at March 31, 2015 and December 31, 2014 between NAIC SAP and practices prescribed by the State of New York is shown below:

		2015	2014
Net income	(Page 4, Line 35), New York basis	\$ 137,769,778	\$ 848,263,200
State presc	ribed practices:		
1.	NYSDFS Circular Letter No. 11 (2010) impact on deferred premiums*	(3,119,445)	3,397,878
2.	NYSDFS Seventh Amendment to Regulation No. 172 impact on admitted unearned reinsurance premium**	 1,036,841	 (1,413,208)
Net income,	NAIC SAP	\$ 135,687,174	\$ 850,247,870

A reconciliation of the Company's capital and surplus at March 31, 2015 and December 31, 2014 between practices prescribed by the State of New York and NAIC SAP is shown below:

		2015	2014			
Capital and surplus (Page 3, Line 38), New York basis		19,146,397,002	\$	18,605,992,583		
State prescribed practices:						
 NYSDFS Circular Letter No. 11 (2010) impact on deferred premiums* 		102,173,591		105,293,036		
 NYSDFS Seventh Amendment to Regulation No. 172 impact on admitted unearned reinsurance premium** 		(40,843,413)		(41,880,254)		
Capital and surplus, NAIC SAP		19,207,727,180	\$	18,669,405,365		

- NYSDFS Circular Letter No. 11 (2010) clarified the accounting for deferred premium assets when reinsurance is involved.
- ** NYSDFS Regulation 172 was amended to allow for the admission of an unearned reinsurance premium asset.
- B. No change.
- C. (1) (13) No change.

2. Accounting Changes and Corrections of Errors

Changes in Accounting Principles

Accounting changes adopted to conform to the provisions of NAIC SAP or other state prescribed practices are reported as changes in accounting principles. The cumulative effect of changes in accounting principles is generally reported as an adjustment to unassigned funds (surplus) in the period of the change in accounting principle. Generally, the cumulative effect is the difference between the amount of capital and surplus at the beginning of the year and the amount of capital and surplus that would have been reported at that date if the new accounting principles had been applied retroactively for all prior periods.

In December 2014, the NAIC adopted Issue Paper No. 149 on wholly owned single real estate property in limited liability companies, which requires an insurance company to account for single member/single asset real estate held in a limited liability company as a real estate investment as opposed to using the equity method. The guidance became effective January 1, 2015. As a result of the adoption of this guidance, the Company transferred \$583,704,246 of real estate previously held in limited liability companies from other invested assets to real estate, and recorded a change in accounting principle that decreased statutory surplus by \$4,125,256.

3. Business Combinations and Goodwill

Not applicable.

4. Discontinued Operations

Not applicable

5. Investments

A. Mortgage Loans, including Mezzanine Real Estate Loans

No change.

B. Debt Restructuring

No change.

C. Reverse Mortgages

The Company does not have any reverse mortgages.

D. Loan-Backed Securities

- (1) Prepayment assumptions for mortgage-backed/loan-backed and structured securities were obtained from internal and external sources such as Bloomberg, Intex and Blackrock Solutions.
- (2) The Company did not have any loan-backed and structured securities which are other-than-temporarily impaired where the Company intends to sell, or does not have the intent and ability to hold until recovery.

(3) The following table lists each security at a CUSIP level where the present value of cash flows expected to be collected is less than the amortized cost basis during the current year:

(1)				OURING THE CURRENT		(7)
(1)	(2)	(3)	(4)	(5)	(6)	(7)

Total	\$ 1,559,581,228	\$	11,680,012	\$ 1,776,521,550	\$	116,099,638	\$	3,336,102,778	\$	127,779,649

(5) The Company performs quantitative and qualitative analysis to determine if a decline in fair value was temporary. For those securities where the decline was considered temporary, the Company did not take an impairment when it had the ability and intent to hold until recovery. Factors considered in evaluating whether a decline in value is other-than-temporary include: (1) whether the decline is substantial; (2) the duration that the fair value has been less than amortized cost; (3) the financial condition and near-term prospects of the issuer; and (4) the Company's ability and intent to retain the investment for the period of time sufficient to allow for an anticipated recovery in value. In addition, for the non-agency residential mortgage backed securities ("RMBS") portfolio, the Company updates cash flow projections quarterly. A projection is performed for each security based upon the evaluation of prepayment, delinquency, and default rates for the pool of mortgages collateralizing each security, and the projected impact on the course of future prepayments, defaults, and loss in the pool of mortgages, but do not include market prices. As a result, forecasts may change from period to period and additional impairments may be recognized over time as a result of deterioration in the fundamentals of a particular security or group of securities and/or a continuation of heightened mortgage defaults for a period longer than the assumptions used for the forecasts. Both qualitative and quantitative factors are used in creating the Company's RMBS cash flow models. As such, any estimate of impairments is subject to the inherent limitation on the Company's ability to predict the aggregate course of future events. It should therefore be expected that actual losses may vary from any estimate and the Company may recognize additional other-than-temporary losses.

E. Repurchase Agreements and/or Securities Lending Transactions

- (1) (2) No change.
- (3) Collateral Received
 - a. No change.
 - The Company has not sold or repledged collateral received from dollar repurchase or securities lending agreements.
 All collateral is received in cash.

11. Debt

- A. No change.
- B. Federal Home Loan Bank ("FHLB") Agreements
 - (1) On February 26, 2008, the Company became a member of the FHLB of NY and began issuing funding agreements to the FHLB of NY in exchange for cash. The proceeds from the sale of these funding agreements are invested to earn a spread on the business. The funding agreements are issued through the general account and are included in the liability for deposit-type contracts on Page 3 Liabilities, Surplus and Other Funds. When a funding agreement is issued, the Company is required to post collateral in the form of eligible securities including mortgage-backed, government and agency debt instruments for each of the advances received. Upon any event of default by the Company, the FHLB of NY's recovery on the collateral is limited to the amount of the Company's liability to the FHLB of NY. The tables below indicate the amounts of FHLB of NY stock purchased, collateral pledged, assets and liabilities related to the agreement with FHLB of NY.
 - (2) FHLB of NY Capital Stock
 - a. Amount of FHLB of NY capital stock held, in aggregate, is as follows:
 - 1 Current Year

1. Current Year	1		2	3	
	Total 2+3	Ge	neral Account	Separate /	Accounts
Membership stock - Class A	\$ -	\$	-	\$	-
Membership stock - Class B	38,134,000		38,134,000		-
Activity stock	60,750,000		60,750,000		-
Excess stock	-		-		-
Aggregate total	\$ 98,884,000	\$	98,884,000	\$	-
Actual or estimated borrowing					
capacity as determined by the insurer	\$ 6,814,719,851	\$	6,814,719,851	\$	-
2. Prior Year					
	1		2	3	1
	Total 2+3	Ge	neral Account	Separate /	Accounts
Membership stock - Class A	\$ -	\$	-	\$	-
Membership stock - Class B	38,134,000		38,134,000		-
Activity stock	72,000,000		72,000,000		-
Excess stock	-		-		-
Aggregate total	\$ 110,134,000	\$	110,134,000	\$	-
Actual or estimated borrowing					

The FHLB borrowing capacity for the Company is determined using 5% of the Company's total admitted assets at the current reporting date, less any secured borrowing amounts.

b. Membership stock (Class A and B) eligible for redemption is as follows:

	Cı	urrent Year Total	Not Eligible For Redemption	Less Than 6 Months	Less Than 1 Year	1 To Less Than 3 Years	3	to 5 Years
Membership stock								
Class A	\$	-	-	-	-	-	\$	-
Class B	\$	38,134,000	=	-	-	-	\$	38,134,000

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement

A. Defined Benefit Plans

(1) - (3) No change.

(4) Components of net periodic benefit cost

	Pension	Ben	efits	Postretirement Benefits					
	March 31,	D	ecember 31,		March 31,	D	ecember 31,		
	 2015		2014	2015			2014		
Service cost	\$ 43,272,380	\$	133,689,639	\$	8,492,412	\$	29,252,420		
Interest cost	77,200,000		290,362,884		17,175,000		73,269,445		
Expected return on plan assets	(105,375,000)		(370,952,400)		(10,250,000)		(38,899,215)		
Gains and losses	46,175,000		90,320,684		4,000,000		10,721,661		
Prior service cost or credit	(450,000)		(1,688,311)		(2,400,000)		(9,663,073)		
Nonvested prior service cost or credit	 2,325,000		15,670,447		5,750,000		26,241,929		
Net periodic benefit cost	\$ 63,147,380	\$	157,402,943	\$	22,767,412	\$	90,923,167		

The Company shares the net periodic benefit cost of certain pension and postretirement benefits with its subsidiaries. The expenses for these plans are allocated to each subsidiary in accordance with an intercompany cost sharing arrangement. The liabilities for these plans are included with the liabilities for the corresponding plan of the Company. Pension and postretirement costs of \$8,664,454 and \$5,810,773, respectively, were billed to subsidiaries for the three months ended March 31, 2015. Pension and postretirement costs of \$54,171,080 and \$35,617,067, respectively, were billed to subsidiaries for the year ended December 31, 2014.

20. Fair Value Measurements

A. The Company's financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on a hierarchy defined by SSAP No. 100, Fair Value Measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This guidance establishes a framework for measuring fair value that includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three levels. The level in the fair value

hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement.

- (1) The levels of the fair value hierarchy are based on the inputs to the valuation as follows:
 - **Level 1** Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market. Active markets are defined as a market in which many transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis.
 - Level 2 Observable inputs other than level 1 prices, such as quoted prices in active markets for similar assets or liabilities; quoted prices in markets that are not active for identical or similar assets or liabilities, or other model driven inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Valuations are generally obtained from third-party pricing services for identical or comparable assets or liabilities or through the use of valuation methodologies using observable market inputs.
 - Level 3 Instruments whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management's own assumptions in pricing the asset or liability. Pricing may also be based upon broker quotes that do not represent an offer to transact. Prices are determined using valuation methodologies such as option pricing models, discounted cash flow models and other similar techniques. Non-binding broker quotes, which are utilized when pricing service information is not available, are reviewed for reasonableness based on the Company's understanding of the market, and are generally considered Level 3. To the extent the internally developed valuations use significant unobservable inputs, they are

The following table represents the balances of assets and liabilities measured at fair value as of March 31, 2015:

Separate accounts contract holder liabilities are not included in the table as they are reported at contract value and not fair value in the Company's Statutory Financial Statement.

(2) The table below presents a rollforward of level 3 assets and liabilities for the three months ended March 31, 2015:

	Balance at 1/1/2015	Transfers into Level 3	Transfers out of Level 3	Total gains or (losses) included in Net Income	Total gains or (losses) included in Surplus	Purchases	Issuances	Sales	Settlements	Balance at 3/31/2015
Non-redeemable preferred stocks	\$ 987,154	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 987,154
Bonds:										
U.S. corporate	12,778	-	-	-	339	-	-	-	-	13,117
Non-agency commercial mortgage-backed securities	3,860,000	-	-	(1,645)	41,645	-	-	-	-	3,900,000
Non-agency asset- backed securities	27,895,720				(2,322,971)	-	-	-	(1,264,280)	24,308,469
Total bonds	31,768,498	-	-	(1,645)	(2,280,986)	-	-	-	(1,264,280)	28,221,587
Common stocks	115,081,760	26,533	(86,060)	603,632	98,081	159,190	-	(11,854,407)	-	104,028,729
Separate accounts assets ¹	832,237,778		(57,742,752)	8,605,141	(3,201,013)	44,016,321		(33,246,066)	(22,146)	790,647,263
Total	\$ 980,075,190	\$ 26,533	\$ (57,828,812)	\$ 9,207,128	\$ (5,383,918)	\$ 44,175,511	\$ -	\$ (45,100,473)	\$ (1,286,426)	\$ 923,884,732

¹ The total gains or (losses) included in surplus for separate accounts assets are offset by an equal amount for separate accounts liabilities, which results in a net zero impact on surplus for the Company.

Transfers between levels

Transfers between levels may occur due to changes in valuation sources, changes in the availability of market observable inputs, which generally are caused by changes in market conditions such as liquidity, trading volume or bid-ask spreads, or as a result of a security measured at amortized cost at the beginning of the period, but measured at estimated fair value at the end of the period, or vice versa, due to a ratings downgrade or upgrade. For the separate accounts, transfers are mostly related to changes in the redemption restrictions of limited partnerships and hedge fund investments. The Company's policy is to assume the transfer occurs at the beginning of the period.

Transfers between Levels 1 and 2

During the three months ended March 31, 2015, there were no transfers between Levels 1 and 2.

Transfers into and out of Level 3

The Company's basis for transferring assets and liabilities into and out of Level 3 is based on changes in the observability of data, change in the security's measurement or changes in redemption restrictions of certain separate account investments.

Transfers out of Level 3 were primarily the result of changes in the redemption period of some of the limited partnerships and hedge funds in which the separate accounts invest.

Transfers into Level 3 were \$26,533 for the three months ended March 31, 2015, which included securities that moved from Level 1 to Level 3. Transfers out of Level 3 totaled \$57,828,812 for the three months ended March 31, 2015, which includes \$86,060 of securities that moved from Level 3 to Level 1.

(3) Determination of fair value

The Company has an established and well-documented process for determining fair value. Security pricing is applied using a hierarchy approach whereby publicly available prices are first sought from nationally recognized third-party pricing services. For most private placement securities, the Company applies a matrix-based pricing methodology, which uses spreads derived from third-party benchmark bond indices. For private placement securities that cannot be priced through these processes, the Company uses internal models and calculations. All other securities are submitted to independent brokers for prices. The Company performs various analyses to ascertain that the prices represent fair value. Examples of procedures performed include, but are not limited to, back testing recent trades, monitoring trading volumes, and performing variance analysis of monthly price changes using different thresholds based on asset type. The Company also performs an annual review of all third-party pricing services. During this review, the Company obtains an understanding of the process and sources used by the pricing service to ensure that they maximize the use of observable inputs, the pricing service's frequency of updating prices, and the controls that the pricing service uses to ensure that their prices reflect market assumptions. The Company also selects a sample of securities and obtains a more detailed understanding from each pricing service regarding how they derived the price assigned to each security. Where inputs or prices do not reflect market participant assumptions, the Company will challenge these prices and apply different methodologies that will enhance the use of observable inputs and data. The Company may use non-binding broker quotes or internal valuations to support the fair value of securities that go through this formal price challenge process. At March 31, 2015, the Company challenged the price it received from third-party pricing services on securities with a book value of \$11,715,003 and a market value of

In addition, the Company has a pricing committee that provides oversight over the Company's prices and fair value process for securities. The committee is comprised of representatives from the Company's Investment Management group, Controller's, Compliance and Security Operations. The committee meets quarterly and is responsible for the review and approval of the Company's valuation procedures. The committee is also responsible for the review of pricing exception reports as well as the review of significant inputs used in the valuation of assets that are valued internally.

For Level 1 investments, valuations are generally based on observable inputs that reflect quoted prices for identical assets in active markets.

The fair value for Level 2 and Level 3 valuations are generally based on a combination of the market and income approach. The market approach generally utilizes market transaction data for the same or similar instruments, while the income approach involves determining fair values from discounted cash flow methodologies.

The following represents a summary of significant valuation techniques for assets and liabilities used to determine fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Level 1 measurements

Common stocks

These securities are comprised of exchange traded U.S. and foreign common stock and mutual funds. Valuation of these securities is based on unadjusted quoted prices in active markets that are readily and regularly available.

Derivatives (including separate accounts liabilities - derivatives)

These derivatives are comprised of exchange traded future contracts. Valuation of these securities is based on unadjusted quoted prices in active markets that are readily and regularly available.

Separate accounts assets

These assets are comprised of cash, exchange traded funds, common stocks and actively traded open-end mutual funds with a daily net asset value ("NAV"). The NAV can be observed by redemption and subscription transactions between third parties, or may be obtained from fund managers. Therefore the fair values of these investments have been reflected within Level 1 in the fair value hierarchy. Common stocks are generally traded on an exchange.

Level 2 measurements

Preferred stocks

The fair value of preferred stock is obtained from third-party pricing services. Vendors generally use a discounted cash flow model or a market approach to arrive at the security's fair value.

Bonds

The fair value of bonds is obtained from third-party pricing services, matrix-based pricing, internal models or broker quotes. Third-party pricing services generally use a discounted cash-flow model or a market approach. Typical inputs used by these pricing sources include, but are not limited to: benchmark yields, reported trades, issuer spreads, bids, offers, benchmark securities, estimated cash flows and prepayment speeds, which the Company has determined are observable inputs.

Private placement securities are primarily priced using a matrix-based pricing methodology, which uses spreads derived from third-party benchmark bond indices. Specifically, the Barclays Credit Index is used for investment-grade securities and the Citi High Yield Cash Index is used for below investment-grade securities. These indices are two widely recognized, reliable, and well regarded benchmarks by participants in the financial services industry, which represent the broader U.S. public bond markets.

Certain private placement securities that cannot be priced using the matrix pricing described above, are priced by an internally developed discounted cash flow model or are priced based on internal calculations. This model uses observable inputs with a discount rate based off spreads of comparable public bond issues, adjusted for liquidity, rating and maturity. The Company assigns a credit rating for private placement securities based upon internal analysis. The liquidity premium is based upon observable market transactions, while the maturity and rating adjustments are based upon data obtained from Bloomberg. These securities are classified as Level 2.

For some of the private placement securities priced through the model, the liquidity adjustments may not be based on market data, but rather, calculated internally. If the impact of the liquidity adjustment, which usually requires the most judgment, is not significant to the overall value of the security, the security is still classified as Level 2.

Derivatives

The fair value of derivative instruments is generally derived using valuation models. The selection of a particular model depends upon the contractual terms of, and specific risks inherent in the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation model inputs include contractual terms, yield curves, foreign exchange rates, equity prices, credit curves, measures of volatility, and other factors. OTC derivatives that trade in liquid markets, where model inputs are observable for substantially the full term, are classified as Level 2.

Separate accounts assets

These are assets primarily related to investments in U.S. government and treasury securities, corporate bonds, and mortgage-backed securities. These separate accounts assets are valued and assigned within the fair value hierarchy, consistent with the methodologies described herein for similar financial instruments held within the general account of the Company. This also relates to investments in limited partnerships and hedge funds that use NAV where the investment can be redeemed at NAV at the measurement date or in the near-term (generally 90 days).

Level 3 measurements

Bonds

The valuation techniques for most Level 3 bonds are generally the same as those described in Level 2. However, if the investments are less liquid or are lightly traded, there is generally less observable market data, and therefore these investments will be classified as Level 3. Circumstances where observable market data are not available may include events such as market illiquidity and credit events related to the security. In addition, certain securities are priced based upon internal valuations using significant unobservable inputs.

If the price received from third-party pricing services does not appear to reflect market activity, the Company may challenge the price. For securities which go through this formal price challenge process, a non-binding broker quote or internal valuation is used to support the fair value instead. The Company also uses non-binding broker quotes to fair value certain bonds, when the Company is unable to obtain prices from third-party vendors.

Private placement securities where adjustments for liquidity are considered significant to the overall price are classified as Level 3.

Common stocks

These securities include equity investments with privately held entities, including a government organization, where the prices are derived from internal valuations.

Separate accounts assets

These assets are primarily related to limited partnership investments and hedge funds that are restricted with respect to transfer or withdrawal (generally greater than 90 days).

B. Not applicable.

C. The following table presents the carrying amounts and estimated fair values of the Company's financial instruments at March 31, 2015. Since the SSAP 100 hierarchy only applies to items that are measured at fair value at the reporting date, the items in the tables above are subsets of the amounts reported in the following table.

	Fair Value		Carrying Am ount		Level 1	Level 2		Level 3	Not cticable

¹ Excludes investments accounted for under the equity method.

Bonds

The fair value of bonds is determined by considering one of four primary sources: (1) security pricing is applied using a hierarchy approach whereby publicly available prices are first sought from nationally recognized third-party pricing services, (2) securities are priced using a matrix-based pricing methodology, which uses spreads derived from third-party benchmark bond indices, (3) securities are priced using an internal pricing model or methodology, and (4) securities are submitted to independent brokers for prices.

The pricing service generally uses a discounted cash-flow model or market approach to determine fair value. Typical inputs used by these pricing services include, but are not limited to: benchmark yields, reported trades, issuer spreads, bids, offers, benchmark securities, estimated cash flows and prepayment speeds.

Independent pricing vendors do not supply prices for private placement bonds. These securities are primarily priced using a matrix-based pricing methodology, which uses spreads derived from third-party benchmark bond indices. Any private securities that cannot be priced using this methodology, are priced using an internally developed model based upon assigned comparable public issues adjusted for liquidity, maturity and rating, or are priced based on internal calculations. The Company assigns a credit rating based upon internal analysis.

Prices from pricing services and broker quotes are validated on an ongoing basis to ensure the adequacy and reliability of the fair value measurement. The Company performs both quantitative and qualitative analysis of the prices including initial and ongoing review of third-party pricing methodologies, back testing of recent trades, and a thorough review of pricing trends and statistics.

Preferred and common stocks

The fair value of unaffiliated equity securities is determined by considering one of three primary sources: (1) security pricing is applied using a hierarchy approach whereby publicly available prices are first sought from third-party pricing services, (2) the remaining un-priced securities are submitted to independent brokers for prices, and (3) securities are priced using an internal pricing model or methodology.

Prices from pricing services and broker quotes are validated on an ongoing basis to ensure the adequacy and reliability of the fair value measurement. The Company performs both quantitative and qualitative analysis of the prices including, initial and ongoing review of third-party pricing methodologies, back testing of recent trades, and a thorough review of pricing trends and statistics.

Mortgage loans

The estimated fair value of mortgage loans is determined based upon the present value of the expected cash flows discounted at an interpolated treasury yield plus a spread. The spread is based on management's judgment and assumptions and it takes into account property type, loan to value and remaining term of each loan. The spread is a significant component of the pricing inputs.

Cash, cash equivalents, short-term investments and investment income due and accrued

Cash on hand is classified as Level 1. Cash overdrafts (i.e. outstanding checks) are classified as Level 2. Due to the short-term maturities, the carrying value of short-term investments, cash equivalents and investment income due and accrued is presumed to approximate fair value.

Derivatives (including separate accounts liabilities)

The fair value of derivative instruments is generally derived using valuation models, except for derivatives that are exchange-traded, which are valued using quoted prices in an active market. Where valuation models are used, the selection of a particular model depends upon the contractual terms of, and specific risks inherent in the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation model inputs include contractual terms, yield curves, foreign exchange rates, equity prices, credit curves, measures of volatility, and other factors.

Other invested assets

Other invested assets are principally comprised of loans receivable from Madison Capital Funding LLC ("MCF") and NYL Investments, LIHTC investments and investments in mortgage loan funds. The fair value of the loan receivable from NYL Investments is based on a discounted cash flow calculation using a market yield based on comparable public data and therefore, classified as Level 2. The fair value of the MCF loans and the LIHTC investments is based on a discounted cash flow calculation using a discount rate that is determined internally (see Note 10 – Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties, for details on the MCF and NYL Investments loans and Note 5 – Investments, for details on LIHTC investments). The fair value of investments in mortgage loan funds is determined based on the same methodology described above under Mortgage loans. For certain other investments included in this line, carrying value is deemed to approximate fair value.

Derivatives - collateral (including separate accounts liabilities collateral)

The carrying value of these instruments approximates fair value since these assets and liabilities are generally short-term in nature

Separate accounts assets

Assets within the separate accounts are primarily invested in bonds and common stock. The fair value of investments in the separate accounts is calculated using the same procedures as are used for bonds and common stocks in the general account.

The separate accounts also invest in limited partnerships and hedge fund investments. The fair value of such partnerships is determined by reference to the limited partnership's NAV. The valuation of the hedge funds is based upon the hedge funds' latest financial statements adjusted for cash activity since that date and estimates of market valuations.

Deposit fund contracts

For funding agreements backing medium term notes, fair values are based on available market prices for the notes. For other funding agreements and annuities certain liabilities, fair values are estimated using discounted cash flow calculations based on interest rates currently being offered for similar contracts with maturities consistent with those remaining for the contracts being valued

For all other deposit funds, dividend accumulations, continued interest accounts and supplemental contracts, estimated fair value is equal to account value.

Premiums paid in advance

For premiums paid in advance, the carrying value of the liability approximates fair value.

Borrowed money

Borrowed money consists of intercompany borrowings, repurchase agreements and other financing arrangements. Due to the short-term nature of the transactions, the carrying value approximates fair value. The Company had no repurchase agreements as of March 31, 2015.

Amounts payable under securities lending

Amounts payable under securities lending consists of cash collateral received under securities lending agreements. The carrying value approximates fair value.

Separate accounts liabilities - deposit-type contracts

For deposit-type contracts, which are funding agreements, the carrying value of the liability approximates fair value.

- **D.** If it is not practicable for an entity to estimate the fair value of that financial instrument or a class of financial instruments, the following shall be disclosed:
 - (1) (2) Not applicable.

21. Other Items

A. Extraordinary Items

Not applicable.

B. Troubled Debt Restructuring: Debtors

Not applicable.

C. Other Disclosures and Unusual Items

- A C. Not applicable.
- D. No change.
- E. Risk Sharing Provisions of the Affordable Care Act ("ACA")
 - (1) As of March 31, 2015, the Company wrote accident and health insurance premiums which is subject to the ACA risk sharing provisions.
 - (2) The impact of risk-sharing provisions of the ACA on admitted assets, liabilities and revenue for the three months ended March 31, 2015 are as follows:
 - a. Permanent ACA Risk Adjustment Program

Not applicable.

b. Transitional ACA Reinsurance Program

At March 31, 2015, the Company's liability for contributions payable due to ACA reinsurance program (not reported as ceded premium) was \$2,898.

c. Temporary ACA Risk Corridors Program

Not applicable.

(3) A roll-forward of prior year ACA risk-sharing provisions for the following liability balance as of March 31, 2015 is as follows:

										Differ	ence	s		Adju	stme	nts			tled Ba e Repo		es as of Date

Explanation of Adjustments:

A. 1 covered life was removed during 2015.

25. Change in Incurred Losses and Loss Adjustment Expenses

Reserves as of December 31, 2014 were \$1,348,057,071. As of March 31, 2015, \$45,899,150 has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$1,194,449,497 as a result of re-estimation of unpaid claims and claim adjustment expenses principally on group medical, disability income, Medicare supplement of insurance and long term care lines of insurance. Therefore, there has been a \$107,708,424 favorable prior-year development from December 31, 2014 to March 31, 2015. The decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. The Company has no unfavorable prior year loss development on retrospectively rated policies included in this decrease. However, the business to which it relates is subject to premium adjustments.

26. Intercompany Pooling Arrangements

Not applicable.

27. Structured Settlements

GENERAL INTERROGATORIES

PART 1 - COMMON INTERROGATORIES

GENERAL

1.1	Did the reporting entity experience any material transactions requiring the filing of Disclosure of Material Transactions with the State of Domicile, as required by the Model Act?	Ye	s []	No	[X]
1.2	.2 If yes, has the report been filed with the domiciliary state?					[]
2.1	.1 Has any change been made during the year of this statement in the charter, by-laws, articles of incorporation, or deed of settlement of the reporting entity?					[X]
2.2	If yes, date of change:						
3.1	Is the reporting entity a member of an Insurance Holding Company System consisting of two or more affiliated persons, one or more of which is an insurer? If yes, complete Schedule Y, Parts 1 and 1A.	Ye	s [Х]	No	[]
3.2	2 Have there been any substantial changes in the organizational chart since the prior quarter end?					[]
3.3	If the response to 3.2 is yes, provide a brief description of those changes. All changes to New York Life's organizational chart made during the first quarter of 2015 have been made in the ordinary course of New York Life's business activities.						
4.1	Has the reporting entity been a party to a merger or consolidation during the period covered by this statement?	Ye	s []	No	[X]
4.2	If yes, provide the name of the entity, NAIC Company Code, and state of domicile (use two letter state abbreviation) for any entity that has ceased to exist as a result of the merger or consolidation.						
	1 2 3 Name of Entity NAIC Company Code State of Domicile						
	Number of Entity (Ville Company Code Create of Definition						
5.	If the reporting entity is subject to a management agreement, including third-party administrator(s), managing general agent(s), attorney-in-fact, or similar agreement, have there been any significant changes regarding the terms of the agreement or principals involved? Yes [If yes, attach an explanation.]	No	[]	N/A [X
6.1	State as of what date the latest financial examination of the reporting entity was made or is being made.		1	2/31	/201	4	
6.2	State the as of date that the latest financial examination report became available from either the state of domicile or the reporting entity. This date should be the date of the examined balance sheet and not the date the report was completed or released.		1	2/31	/200	19	
6.3	State as of what date the latest financial examination report became available to other states or the public from either the state of domicile or the reporting entity. This is the release date or completion date of the examination report and not the date of the examination (balance sheet date).		0	6/08	/201	1	
6.4	By what department or departments?						
6.5	New York State Department of Financial Services in conjunction with representatives of the other zones established by the NAIC. Have all financial statement adjustments within the latest financial examination report been accounted for in a subsequent financial statement filed with Departments? Yes []	No	[]	N/A [[X]
6.6	Have all of the recommendations within the latest financial examination report been complied with?Yes []	No	[]	N/A [[X]
7.1	Has this reporting entity had any Certificates of Authority, licenses or registrations (including corporate registration, if applicable) suspended or revoked by any governmental entity during the reporting period?	Ye	s []	No	[X]
7.2	If yes, give full information:						
8.1	Is the company a subsidiary of a bank holding company regulated by the Federal Reserve Board?	Ye	s []	No	[X]
8.2	If response to 8.1 is yes, please identify the name of the bank holding company.						
8.3	Is the company affiliated with one or more banks, thrifts or securities firms?	Ye	s [Х]	No	[]
8.4	If response to 8.3 is yes, please provide below the names and location (city and state of the main office) of any affiliates regulated by a federal regulatory services agency [i.e. the Federal Reserve Board (FRB), the Office of the Comptroller of the Currency (OCC), the Federal Deposit Insurance Corporation (FDIC) and the Securities Exchange Commission (SEC)] and identify the affiliate's primary federal regulator.

(L) Licensed or Chartered - Licensed Insurance Carrier or Domiciled RRG; (R) Registered - Non-domiciled RRGs; (Q) Qualified - Qualified or Accredited Reinsurer; (E) Eligible - Reporting Entities eligible or approved to write Surplus Lines in the state; (N) None of the above - Not allowed to write business in the state.

(a) Insert the number of L responses except for Canada and Other Alien.

Direct Ordinary premiums, Annuities and Individual Accident and Health premiums are allocated by States on the basis of the address to which the premium notice is sent. Single premiums are allocated according to the residence of the insured, owner, or annuitant or the address designated to which business communication should be sent. Group Life, Group Health, and Group Annuity contracts are allocated according to the residence of the individual for whom benefits are purchased or provided. Deposit-Type Funds are state distributed based on where the contract is issued. This is usually the state where the principal office of the plan sponsor is located. The plan sponsor is typically the employer who establishes the pension plan. Premium or annuities waived under disability or other contract provisions are shown in one sum on Line 93, columns 2, 3, 4, 5, 6, and 7. All US business are allocated by state regardless of license status. Dividends applied to pay renewal premiums and considerations for annuities are state distributed.

SCHEDULE Y - INFORMATION CONCERNING ACTIVITIES OF INSURER MEMBERS OF A HOLDING COMPANY GROUP PART 1 - ORGANIZATIONAL CHART

The following entities are directly controlled by New York Life Insurance Company (Parent) (entities that are indented are directly controlled by the preceding entity).

Asterisk	Explanation
1 Investme	ent Advisory Agreement - Institutional Capital LLC is the investment advisor of this collective investment trust, which is offered to third party investors.
2 Contract	tual Client - MCF Capital Management LLC, an indirect wholly owned affiliate of the Company, has contractual control of this entity's loan portfolio.
3 Control	of this entity is pursuant to an investment management contract with New York Life Investment Management LLC or affiliate, not through ownership of voting interests.
4 Investme	ent Fund - Fund that invests in listed Australian equities, which is managed by Ausbil Investment Management Limited.
5 GoldPoin	nt Partners LLC owns 24.66% of the voting management shares. NYLCAP India Funding LLC owns 36% of non-voting carry shares.
6 GoldPoin	nt Partners LLC owns 24.66% of the voting management shares. NYLCAP India Funding III LLC owns 31.36% of non-voting carry shares.
7 Investme	ent Pool - Investment pool of leveraged loans managed by New York Life Investment Management LLC, an indirect wholly owned affiliate of the Company.
8 Reliance	e Relationship - Entire proceeds of the entity are invested in a funding agreement of the Company.
9 Energy C	Contracts and Aircraft Loans Investments - With 100% of the investments coming from the Company and its wholly owned affiliate New York Life Insurance and Annuity Corporation.
10Reliance	e Relationship - Owners of this entity are agents of the Company. All business of this entity is conducted through reinsurance agreements with the Company and its insurance affiliates.
11 Control	of this entity is pursuant to an investment management contract with Private Advisors LLC or affiliate, not through ownership of voting interests.
	e Relationship - A collective trust of mainly New York Life Insurance and Annuity Corporation assets (98.3%).

SUPPLEMENTAL EXHIBITS AND SCHEDULES INTERROGATORIES

The following supplemental reports are required to be filed as part of your statement filing. However, in the event that your company does not transact the type of business for which the special report must be filed, your response of NO to the specific interrogatory will be accepted in lieu of filing a "NONE" report and a bar code will be printed below. If the supplement is required of your company but is not being filed for whatever reason enter SEE EXPLANATION and provide an explanation following the interrogatory questions.

		Response
1.	Will the Trusteed Surplus Statement be filed with the state of domicile and the NAIC with this statement?	NO
2.	Will the Medicare Part D Coverage Supplement be filed with the state of domicile and the NAIC with this statement?	YES
