The officers of this reporting entity, being duly sworn, each depose and say that they are the described officers of said reporting entity, and that on the reporting period stated above, all of the herein described assets were the absolute property of the said reporting entity, free and clear from any liens or claims thereon, except as herein stated, and that this statement, together with related exhibits, schedules and explanations therein contained, annexed or referred to, is a full and true statement of all the assets and liabilities and of the condition and affairs of the said reporting entity as of the reporting period stated above, and of its income and deductions there from for the period ended, and have been completed in accordance with the NAIC *Annual Statement Instructions* and *Accounting Practices and Procedures Manual* except to the extent that: (1) state law may differ; or, (2) state rules or regulations require differences in reporting not related to accounting practices and procedures, according to the best of their information, knowledge and belief, respectively. Furthermore, the scope of this attestation by the described officers also includes the related corresponding electronic filing with the NAIC, when required, that is an exact copy (except for formatting differences due to electronic filing) of the enclosed statement. The electronic filing may be requested by various regulators in lieu of or in addition to the enclosed statement.

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

A. The accompanying financial statements of New York Life Insurance and Annuity Corporation (“the Company”) have been prepared using accounting practices prescribed or permitted by the Delaware State Insurance Department (“DSID”).

The Department recognizes only statutory accounting practices prescribed or permitted by the State of Delaware for determining and reporting the financial position and results of operations of an insurance company and for determining its solvency under the Delaware State Insurance Law. The National Association of Insurance Commissioners’ (“NAIC”) *Accounting Practices and Procedures Manual* (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the State of Delaware. Prescribed statutory accounting practices include state laws and regulations. Permitted statutory accounting practices encompass accounting practices that are not prescribed; such practices differ from state to state, may differ from company to company within a state, and may change in the future. The Company has no permitted practices.

A reconciliation of the Company’s net income and capital and surplus at September 30, 2025 and December 31, 2024 between practices prescribed or permitted by the State of Delaware and NAIC SAP is shown below:

|                                                                                            | SSAP # | F/S<br>Page | F/S<br>Line # | 2025                    | 2024                    |

B. No change.

C. (1) No change.

(2) Bonds that meet the SSAP No.26 principles-based bond definition (“PBBB”) are stated at amortized cost using the interest method. Bonds in or near default (rated NAIC 6) are stated at the lower of amortized cost or fair value. Bonds that do not meet the PBBB are generally reported as other invested assets at the lower of cost or market. The cost basis of bonds is adjusted for impairments in value deemed to be other-than-temporary, with the difference between the bond’s amortized cost and its fair value recognized as a realized loss reported in net income. The new cost basis of an impaired bond is not adjusted for subsequent increases in estimated fair value. In periods subsequent to the recognition of an other-than-temporary impairment (“OTTI”), the impaired bond is accounted for as if it had been purchased on the measurement date of the impairment. SVO-Identified bond Exchange Traded Funds (“ETFs”) are stated at fair value and reported as bonds. Refer to Note 20 - Fair Value Measurements, for discussion on the valuation approach and methods for bonds.

(3) - (5) No change.

(6) The interest method for asset-backed securities, which are included in bonds, uses current assumptions of projected cash flows. Amortization of premium or accretion of discount from the purchase of these securities considers the estimated timing and amount of cash flows of the underlying loans, including prepayment assumptions based on data obtained from external sources or internal estimates. Projected future cash flows are updated monthly, and the amortized cost and effective yield of the securities are adjusted as necessary to reflect historical prepayment experience and changes in estimated future prepayments. For high credit quality asset-backed securities backed by the U.S. government (those rated AA or above at the date of acquisition), the adjustments to amortized cost are recorded as a charge or credit to net investment income in accordance with the retrospective method. For all other securities, including all asset-backed securities that are not of high credit quality (those rated below AA at date of acquisition), floating rate securities and securities with the potential for a loss of a portion of the original investment due to contractual prepayments (e.g., interest only securities), the effective yield is adjusted prospectively for any changes in estimated cash flows. Refer to Note 20 - Fair Value Measurements, for discussion on the valuation approach and methods for bonds.

The cost basis of asset-backed securities is adjusted for impairments in value that are deemed to be other-than-temporary. An other-than-temporary loss is recognized in net income when it is anticipated that the amortized cost will not be recovered. For asset-backed securities, the entire difference between the security’s amortized cost and its fair value is recognized in net income only when the Company (a) has the intent to sell the security or (b) it does not have the intent and ability to hold the security to recovery. If neither of these two conditions exists, a realized loss is recognized in net income for the difference between the amortized cost basis of the security and the net present value of projected future cash flows expected to be collected. The net present value is calculated by discounting the Company’s best estimate of projected future cash flows at the effective interest rate implicit in the asset-backed security prior to impairment.

The new cost basis of an impaired security is not adjusted for subsequent increases in estimated fair value. In periods subsequent to the recognition of an other-than-temporary loss, the impaired asset-backed security is accounted for as if it had been purchased on the measurement date of the impairment. Accordingly, the discount (or reduced premium) based on the new cost basis may be accreted into net investment income in future periods based on prospective changes in cash flow estimates, to reflect adjustments to the effective yield.

(7) - (13) No change.

D. Going Concern

The Company does not have any doubt about its ability to continue as a going concern.

NOTES TO FINANCIAL STATEMENTS

2. Accounting Changes and Corrections of Errors

Accounting changes adopted to conform to the provisions of NAIC SAP or other state prescribed accounting practices are reported as changes in accounting principles. The cumulative effect of changes in accounting principles is generally reported as an adjustment to unassigned surplus in the period of the change in accounting principle. Generally, the cumulative effect is the difference between the amount of capital and surplus at the beginning of the year and the amount of capital and surplus that would have been reported at that date if the new accounting principles had been applied retroactively for all prior periods.

Changes in Accounting Principles

The NAIC adopted revisions to SSAP No. 93 Investments in Tax Credit Structures to provide new guidance on the accounting, recognition, and reporting of investments where the return is substantially earned through either federal or state tax credits. Specifically, the guidance requires for all tax credit investments to be reported on Schedule BA and accounted for under the proportional amortization method. Revisions were also made to SSAP No. 94R—State and Federal Tax Credits which clarifies the accounting guidance for certificated tax credits and expands the current guidance to include not just purchased state tax credits, but federal tax credits as well. The guidance also requires these tax credits to be recorded at face value with the discount to the certificate's face value recorded as a deferred gain. The Company adopted the new guidance on January 1, 2025. Upon adoption, there was no significant impact to the Company's surplus.

The NAIC adopted revisions to SSAP No. 26 "Bonds" to incorporate a PBBD. Revisions were also made to SSAP No. 43 "Asset Backed Securities" and SSAP No. 21 "Other Admitted Assets". The revised definition includes criteria that must be met in order for a debt instrument to be reported as a bond. Under the new definition, bonds are reported as issuer credit obligations or asset-backed securities. The Company adopted the new guidance on January 1, 2025. Upon adoption, the Company identified debt securities with a book adjusted carrying value (BACV) of \$441,245,084 and \$13,227,503 for the general account and book value separate accounts, respectively, that no longer met the definition of a bond. These bonds were reclassified to either preferred stock or other invested assets. Prior to adoption of the new definition, these debt securities were carried at amortized cost unless they had an NAIC-6 designation, which required lower of cost or market (LOCOM) accounting. Details regarding these securities' BACV and accounting measurement before and post adoption are as follows:

General Account

Changes in Accounting Policy

On September 30, 2024, the Company changed its accounting policy on the reporting of premiums and benefits on internal replacement transactions. Internal replacements refer to transactions whereby a policyholder transfers the cash surrender value from their current policy into a similar policy. Premiums and benefits from these types of exchanges are now reported gross in the statement of operations. Our previous policy, which was discussed with the Department and to which they had no objection, was to net the benefit expense against the premium income in the statement of operations.

Change in Reserve Valuation Basis

In 2025, the Department granted approval for the Company to change the reserve valuation basis for fixed deferred annuities to the Standard Valuation Law (SVL). Prior to this change, reserves for fixed deferred annuities with market value adjustments were computed in accordance with the minimum statutory reserve standard under the New York State Department of Financial Services ("NYSDFS") Regulation 127, which required the use of Plan Type C valuation rates. Under the SVL, which is the Delaware minimum reserve standard, these contracts are valued using Plan Type B rates. As of December 31, 2024, the impact of this change in reserve valuation basis resulted in a reduction in policy reserves and a corresponding increase in statutory surplus of \$51 million.

In 2024, the Delaware State Insurance Department (DSID) granted approval for the Company to change the reserve valuation basis for the variable deferred annuity policies to the NAIC valuation basis (VM-21). Prior to this change, reserves for these policies were computed in accordance with the minimum statutory reserve standard required under New York law, which results in reserves that are higher than those computed pursuant to the NAIC basis (VM-21), which is the Delaware minimum reserve standard. For the index-linked account corresponding to a variable annuity product, the Company still applies Actuarial Guideline XXXV. At December 31, 2024, the impact of this change in reserve valuation basis resulted in a reduction of the aggregate reserve for life contracts by \$46,846,231 and an increase in Expense Allowances recognized in Reserves (included in Transfers to Separate Accounts due or accrued) of \$135,978,361, thereby increasing the statutory surplus by \$182,824,592 (see Summary of Operations – Page 4 – Line 43).

| Guaranteed<br>Separate Accounts | 119,182,064             | 2,206,493            | 851,656,938             | 108,495,460          | 970,839,002             | 110,701,953          |
| Total                           | \$ 2,689,395,122        | \$ 47,770,467        | \$14,466,733,402        | \$ 1,457,826,651     | \$17,156,128,524        | \$ 1,505,597,118     |

(5) The Company performs quantitative and qualitative analysis to determine if a decline in fair value was temporary. For those securities where the decline was considered temporary, the Company did not take an impairment when it had the ability and intent to hold until recovery. Factors considered in evaluating whether a decline in value is other-than-temporary include: (1) whether the decline is substantial; (2) the duration that the fair value has been less than amortized cost; (3) the financial condition and near-term prospects of the issuer; and (4) the Company's ability and intent to retain the investment for the period of time sufficient to allow for an anticipated recovery in value. In addition, for the non-agency residential mortgage backed securities ("RMBS") portfolio, the Company updates cash flow projections quarterly. A projection is performed for each security based upon the evaluation of prepayment, delinquency, and default rates for the pool of mortgages collateralizing each security, and the projected impact on the course of future prepayments, defaults, and loss in the pool of mortgages, but do not include market prices. As a result, forecasts may change from period to period and additional impairments may be recognized over time as a result of deterioration in the fundamentals of a particular security or group of securities and/or a continuation of heightened mortgage defaults for a period longer than the assumptions used for the forecasts. Both qualitative and quantitative factors are used in creating the Company's RMBS cash flow models. As such, any estimate of impairments is subject to the inherent limitation on the Company's ability to predict the aggregate course of future events. It should therefore be expected that actual losses may vary from any estimate and the Company may recognize additional other-than-temporary losses.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions

- (1) - (2) No change.
- (3) Collateral Received
- a. No change.
- b. The Company has not sold or re-pledged collateral received from securities lending agreements. All collateral is received in cash.
- c. No change.
- (4) - (7) No change.

F. Repurchase Agreements Transactions Accounted for as Secured Borrowing

Not applicable.

G. Reverse Repurchase Agreements Transactions Accounted for as Secured Borrowing

- (1) The Company enters into tri-party reverse repurchase agreements to purchase and resell short-term securities. The Company as a cash provider receives securities as collateral, having a fair value at least equal to 102% of the purchase price paid by the Company for the securities and the Company's designated custodian takes possession of this collateral. The Company is not permitted to sell or repledge these securities. The collateral is not recorded on the Company's financial statements. However, if the counterparty defaults, the Company would then exercise its rights with respect to the collateral, including a sale of the collateral. The fair value of the securities held as collateral is monitored daily and additional collateral is obtained, where appropriate, to protect against credit exposure. The Company records the amount paid for securities purchased under agreements to resell in cash, cash equivalents and short-term investments. At September 30, 2025, the carrying value and fair value of securities held under agreements to purchase and resell was \$506,002,000, which were classified as tri-party reverse repurchase agreements and included with cash, cash equivalents and short-term investments on Page 2 - Assets. The securities had a weighted average maturity of one day and a weighted average yield of 4.20%.
- (2) Type of repo trades used

11. Debt

- A. No change.
- B. Federal Home Loan Bank ("FHLB") Agreements

(1) The Company is a member of the FHLB of Pittsburgh or the "Bank". Membership in the Bank provides the Company with a significant source of alternative liquidity. Advances received by the general account are included in the liability for borrowed money on Page 3 - Liabilities, Surplus and Other Funds. When borrowing from the Bank, the Company is required to post collateral in the form of eligible securities, including mortgage-backed, government and agency debt instruments for each of the advances received. Upon any event of default by the Company, the FHLB of Pittsburgh's recovery from the collateral is limited to the amount of the Company's liability to the FHLB of Pittsburgh. The table below indicates the amount of FHLB of Pittsburgh stock purchased, collateral pledged, assets and liabilities related to the agreement with the Bank.

(2) FHLB of Pittsburgh Capital Stock

a. Amount of FHLB of Pittsburgh capital stock held, in aggregate, is as follows:

1. Current year

|                                                                    | Total                | General Account      | Separate<br>Accounts |

20. Fair Value Measurements

- A. The Company's financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on a hierarchy defined by SSAP No. 100, "Fair Value Measurements". Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This guidance establishes a framework for measuring fair value that includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement.

NOTES TO FINANCIAL STATEMENTS

(1) The levels of the fair value hierarchy are based on the inputs to the valuation as follows:

- Level 1

Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market. Active markets are defined as a market in which many transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2

Observable inputs other than level 1 prices, such as quoted prices in active markets for similar assets or liabilities; quoted prices in markets that are not active for identical or similar assets or liabilities, or other model driven inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Valuations are generally obtained from third-party pricing services for identical or comparable assets or liabilities or through the use of valuation methodologies using observable market inputs.
- Level 3

Instruments whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management's own assumptions in pricing the asset or liability. Pricing may also be based upon broker quotes that do not represent an offer to transact. Prices are determined using valuation methodologies such as option pricing models, discounted cash flow models and other similar techniques. Non-binding broker quotes, which are utilized when pricing service information is not available, are reviewed for reasonableness based on the Company's understanding of the market, and are generally considered Level 3. To the extent the internally developed valuations use significant unobservable inputs, they are classified as Level 3.

The following table represents the balances of assets and liabilities measured at fair value or net asset value ("NAV") as of September 30, 2025:

|                                                               | Quoted Prices in<br>Active Markets<br>for Identical<br>Assets<br>(Level 1) | Significant<br>Observable<br>Inputs<br>(Level 2) | Significant<br>Unobservable<br>Inputs<br>(Level 3) | Net Asset<br>Value (NAV) | Total             |
|---------------------------------------------------------------|----------------------------------------------------------------------------|--------------------------------------------------|----------------------------------------------------|--------------------------|-------------------|
| a. Assets at fair value                                       |                                                                            |                                                  |                                                    |                          |                   |

Transfers between levels

Transfers between levels may occur due to changes in valuation sources, changes in the availability of market observable inputs, which generally are caused by changes in market conditions such as liquidity, trading volume or bid-ask spreads, or as a result of a security measured at amortized cost at the beginning of the period, but measured at estimated fair value at the end of the period, or vice versa, due to a ratings downgrade or upgrade.

Transfers into and out of Level 3

The Company's basis for transferring assets and liabilities into and out of Level 3 is based on changes in the observability of data or a change in the security's measurement or changes in redemption restrictions of certain separate account investments.

Transfers into Level 3 totaled \$9,006,600 for the three months ended September 30, 2025, which relate to common stocks due to a change in price source. Transfers out of Level 3 totaled \$64,093,801 for the three months ended September 30, 2025 which relate to \$35,993,919 of other invested assets residual tranches of securitizations that were measured at fair value at the beginning of the period and measured at amortized cost at the end of the period and \$28,099,882 of preferred stock that transferred out of Level 3 due to a corporate action conversion to common stock, which are classified as Level 1.

(3) Determination of Fair Value

The Company has an established and well-documented process for determining fair value. Security pricing is applied using a hierarchy approach whereby publicly available prices are first sought from nationally recognized third-party pricing services. For most private placement securities, the Company applies a matrix-based pricing methodology, which uses spreads derived from third-party benchmark bond indices. For private placement securities that cannot be priced through these processes, the Company uses internal models and calculations. All other securities are submitted to independent brokers for prices. The Company performs various analyses to ascertain that the prices represent fair value. Examples of procedures performed include, but are not limited to, back testing recent trades, monitoring trading volumes, and performing variance analysis of monthly price changes using different thresholds based on asset type. The Company also performs an annual review of all third-party pricing services. During this review, the Company obtains an understanding of the process and sources used by the pricing service to ensure that they maximize the use of observable inputs, the pricing service's frequency of updating prices, and the controls that the pricing service uses to ensure that their prices reflect market assumptions. The Company also selects a sample of securities and obtains a more detailed understanding from each pricing service regarding how they derived the price assigned to each security. Where inputs or prices do not reflect market participant assumptions, the Company will challenge these prices and apply different methodologies that will enhance the use of observable inputs and data. The Company may use non-binding broker quotes or internal valuations to support the fair value of securities that go through this formal price challenge process. At September 30, 2025, the Company did not have any price challenges on general account and separate account securities for what it received from third party pricing services.

In addition, the Company has a pricing committee that provides oversight over the Company's prices and fair value process for securities. The committee is comprised of representatives from the Company's Investment Management group, Controller's, Compliance and Security Operations. The committee meets quarterly and is responsible for the review and approval of the Company's valuation procedures. The committee is also responsible for the review of pricing exception reports as well as the review of significant inputs used in the valuation of assets that are valued internally.

For Level 1 investments, valuations are generally based on observable inputs that reflect quoted prices for identical assets in active markets.

The fair value for Level 2 and Level 3 valuations are generally based on a combination of the market and income approach. The market approach generally utilizes market transaction data for the same or similar instruments, while the income approach involves determining fair values from discounted cash flow methodologies.

The following represents a summary of significant valuation techniques for assets and liabilities used to determine fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Level 1 measurements

SVO identified bond ETF

For U.S. SAP, bonds reported as Level 1 represent investments in certain SVO approved ETF and mutual funds. Valuation of these securities is based on unadjusted quoted prices in active markets that are readily and regularly available. All other ETFs and mutual funds are classified and accounted for as common stock.

Common stocks

These securities are comprised of exchange traded U.S. and foreign common stock and mutual funds. Valuation of these securities is based on unadjusted quoted prices in active markets that are readily and regularly available.

Derivatives

These derivatives are comprised of exchange traded future contracts. Valuation of these securities is based on unadjusted quoted prices in active markets that are readily and regularly available.

NOTES TO FINANCIAL STATEMENTS

*Separate accounts assets*

These assets are comprised of exchange traded funds, common stocks and actively traded open-end mutual funds with a daily net asset value (“NAV”). The NAV can be observed by redemption and subscription transactions between third parties or may be obtained from fund managers. Therefore, the fair values of these investments has been reflected within Level 1 in the fair value hierarchy. Common stocks are generally traded on an exchange.

**Level 2 measurements**

*Preferred stocks*

The fair value of preferred stock is obtained from third-party pricing services. Vendors generally use an income-based valuation approach by using a discounted cash flow model or it may use a market approach to arrive at the security’s fair value or a combination of the two.

*Bonds*

The fair value of bonds is obtained from third-party pricing services, matrix-based pricing, internal models or broker quotes. Third-party pricing services generally use an income-based valuation by using a discounted cash-flow model or it may also use a market approach by looking at recent trades of a specific security to determine fair value on public securities or a combination of the two. Typical inputs used by these pricing sources include, but are not limited to: benchmark yields, reported trades, issuer spreads, bids, offers, benchmark securities, estimated cash flows and prepayment speeds, which the Company has determined are observable inputs.

Private placement securities are primarily priced using a market approach such as a matrix-based pricing methodology, which uses spreads derived from third-party benchmark bond indices. Specifically, the Barclays Investment Grade Corporate Index is used for investment-grade securities and the Citi High Yield Cash Index is used for below investment-grade securities. These indices are two widely recognized, reliable and well regarded benchmarks by participants in the financial services industry, which represent the broader U.S. public bond markets. The spreads derived from each matrix are adjusted for liquidity. The liquidity premium is standardized and based on market transactions.

Certain private placement securities that cannot be priced using the matrix pricing described above are priced by an internally developed discounted cash flow model or are priced based on internal calculations. The model uses observable inputs with a discount rate based off spreads of comparable public bond issues, adjusted for liquidity, rating and maturity. The Company assigns a credit rating for private placement securities based upon internal analysis. The liquidity premium is usually based on market transactions. These securities are classified as Level 2.

For some of the private placement securities priced through the model, the liquidity adjustments may not be based on market data, but rather, calculated internally. If the impact of the liquidity adjustment, which usually requires the most judgment, is not significant to the overall value of the security, the security is still classified as Level 2. If it is deemed to be significant, the security is classified as Level 3.

*Common Stocks*

These securities include equity investments that do not trade in an active market. Valuation of these securities is based on prices obtained from independent pricing vendors who use unadjusted quoted prices in active markets for similar securities that are readily and regularly available. These prices are validated for reasonableness against recently traded market prices.

*Derivatives (including separate accounts liabilities – derivatives)*

The fair value of derivative instruments is generally derived using valuation models that use an income approach, except for derivatives, which are either exchange-traded, or the fair value is priced using broker quotations. The selection of a particular model depends upon the contractual terms of, and specific risks inherent in the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation model inputs include contractual terms, yield curves, foreign exchange rates, equity prices, credit curves, measures of volatility and other factors. OTC derivatives that trade in liquid markets, where model inputs are observable for substantially the full term, are classified as Level 2.

*Separate accounts assets*

These are assets primarily related to investments in U.S. government and treasury securities, corporate bonds, and mortgage-backed securities. These separate accounts assets are valued and assigned within the fair value hierarchy, consistent with the methodologies described herein for similar financial instruments held within the general account of the Company.

**Level 3 measurements**

*Bonds*

The valuation techniques for most Level 3 bonds are generally the same as those described in Level 2. However, if the investments are less liquid or are lightly traded, there is generally less observable market data, and therefore these investments will be classified as Level 3. Circumstances where observable market data are not available may include events such as market illiquidity and credit events related to the security. In addition, certain securities are priced based upon internal valuations using significant unobservable inputs. If a security could not be priced by a third-party vendor or through internal pricing models, broker quotes are received and reviewed by each investment analyst. These inputs may not be observable. Therefore, Level 3 classification is determined to be appropriate.

If the price received from third-party pricing services does not appear to reflect market activity, the Company may challenge the price. For securities which go through this formal price challenge process, a non-binding broker quote, or internal valuation is used to support the fair value instead. The Company also uses non-binding broker quotes to fair value certain bonds, when the Company is unable to obtain prices from third-party vendors.

Private placement securities where adjustments for liquidity are considered significant to the overall price are classified as Level 3.

*Preferred and common stocks*

These securities include equity investments with privately held entities, including a government organization, where the prices are derived from internal valuations.

*Derivatives*

Derivatives that are valued based upon models with any significant unobservable market inputs or inputs from less actively traded markets, or where the fair value is solely derived using broker quotations, are classified as Level 3.

NOTES TO FINANCIAL STATEMENTS

Other Invested Assets

Other invested assets include preferred units of a limited partnership and residual tranches of securitizations. The fair value of the preferred units is derived internally based on market comparable and recent transactions by the limited partnership. This valuation technique used required inputs that were both unobservable and significant and therefore classified as Level 3. The fair value of the residual tranches of securitizations is derived using an income valuation approach, which is based on a discounted cash flow calculation that may or may not use observable inputs and is classified as Level 3.

Separate accounts assets

Separate accounts assets reported as Level 3 relate to investments in common stocks. These are instruments whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

- B. Not applicable.
- C. The following table presents the carrying amounts and estimated fair values of the Company's financial instruments at September 30, 2025. Since the SSAP 100 hierarchy only applies to items that are measured at fair value at the reporting date, the items in the tables above are subsets of the amounts reported in the following table.

|                                                   | Fair Value        | Carrying Amount   | Level 1          | Level 2           | Level 3          | Net Asset Value<br>(NAV) | Not<br>Practicable<br>(Carrying<br>Value) |
|---------------------------------------------------|-------------------|-------------------|------------------|-------------------|------------------|--------------------------|-------------------------------------------|
| Assets:                                           |                   |                   |                  |                   |                  |                          |                                           |
| Issuer Credit Obligations                         | \$71,275,178,076  | \$75,419,554,770  | \$ —             | \$68,509,430,838  | \$ 2,765,747,238 | \$ —                     | \$ —                                      |
| Asset Backed Securities                           | 31,621,196,133    | 32,758,100,104    | —                | 29,665,115,958    | 1,956,080,175    | —                        | —                                         |
| Total Bonds                                       | 102,896,374,209   | 108,177,654,874   | —                | 98,174,546,796    | 4,721,827,413    | —                        | —                                         |
| Preferred stocks                                  | 228,351,629       | 228,351,629       | —                | 228,351,629       | —                | —                        | —                                         |
| Common stocks                                     | 536,721,238       | 536,721,238       | 479,921,523      | 540               | 33,299,180       | 23,499,995               | —                                         |
| Mortgage loans                                    | 19,214,207,016    | 19,583,186,354    | —                | —                 | 19,214,207,016   | —                        | —                                         |
| Cash, cash equivalents and short-term investments | 3,760,816,268     | 3,760,816,269     | 454,398,990      | 3,306,417,278     | —                | —                        | —                                         |
| Derivatives                                       | 1,136,264,389     | 938,007,145       | 58,900           | 1,136,205,489     | —                | —                        | —                                         |
| Derivatives - collateral                          | 104,190,665       | 104,190,665       | —                | 104,190,665       | —                | —                        | —                                         |
| Other invested assets <sup>1</sup>                | 1,076,891,526     | 973,510,219       | —                | 414,527,168       | 662,364,358      | —                        | —                                         |

| Separate accounts assets                          | 65,536,038,752    | 65,940,496,157    | 56,795,800,542   | 4,736,240,544     | 1,191,296,906    | 2,812,700,760            | —                                         |
| Total assets                                      | \$195,617,514,101 | \$201,370,592,959 | \$57,730,179,955 | \$109,228,138,516 | \$25,822,994,873 | \$2,836,200,755          | \$ —                                      |
| Liabilities:                                      |                   |                   |                  |                   |                  |                          |                                           |
| Deposit fund contracts:                           |                   |                   |                  |                   |                  |                          |                                           |
| Annuities certain                                 | \$ 1,837,444,853  | \$ 1,855,794,579  | \$ —             | \$ —              | \$ 1,837,444,853 | \$ —                     | \$ —                                      |
| Derivatives                                       | 298,281,473       | 367,105,137       | —                | 298,281,473       | —                | —                        | —                                         |
| Derivatives - collateral                          | 725,595,830       | 725,595,830       | —                | 725,595,830       | —                | —                        | —                                         |
| Payable to parent and affiliate                   | 247,843,878       | 247,843,878       | —                | 247,843,878       | —                | —                        | —                                         |
| Borrowed money                                    | —                 | —                 | —                | —                 | —                | —                        | —                                         |
| Amounts payable for securities lending            | 1,003,491,732     | 1,003,491,732     | —                | 1,003,491,732     | —                | —                        | —                                         |
| Separate accounts liabilities - derivatives       | 15,965,248        | 12,755,068        | —                | 15,965,248        | —                | —                        | —                                         |
| Total liabilities                                 | \$ 4,128,623,014  | \$ 4,212,586,224  | \$ —             | \$ 2,291,178,161  | \$ 1,837,444,853 | \$ —                     | \$ —                                      |

<sup>1</sup> Excludes investments accounted for under the equity method.

Bonds

The fair value of bonds is determined by considering one of four primary sources: (1) security pricing is applied using a hierarchy approach whereby publicly available prices are first sought from nationally recognized third-party pricing services, (2) securities are priced using a matrix-based pricing methodology, which uses spreads derived from third-party benchmark bond indices, (3) securities are priced using an internal pricing model or methodology, and (4) securities are submitted to independent brokers for prices.

The pricing service generally uses an income-based approach by using a discounted cash-flow model or it may also use a market approach by looking at recent trades of a specific security to determine fair value on public securities or a combination of the two. Typical inputs used by these pricing services include, but are not limited to; benchmark yields, reported trades, issuer spreads, bids, offers, benchmark securities, estimated cash flows and prepayment speeds.

Independent pricing vendors do not supply prices for private placement bonds. These securities are primarily priced using a market approach such as a matrix-based pricing methodology, which uses spreads derived from third-party benchmark bond indices. Any private securities that cannot be priced using this methodology, are priced using an internally developed model based upon assigned comparable public issues adjusted for liquidity, maturity and rating or are priced based on internal calculations. The Company assigns a credit rating based upon internal analysis.

Prices from pricing services and broker quotes are validated on an ongoing basis to ensure the adequacy and reliability of the fair value measurement. The Company performs both quantitative and qualitative analysis of the prices including initial and ongoing review of third-party pricing methodologies, back testing of recent trades, and a thorough review of pricing trends and statistics.

Included in bonds are affiliated bonds from MCF and NYL Investments. The affiliated bond from MCF had a carrying value of \$2,520,033,916 and a fair value of \$2,526,586,004 at September 30, 2025. The fair value of this security is calculated internally and may include inputs that may not be observable. Therefore, this security is classified as Level 3. The affiliated bond from NYL Investments had a carrying value of \$762,000,000 and a fair value of \$758,881,500 at September 30, 2025. The fair value of this security is calculated internally using observable inputs and is therefore classified at Level 2.

# NOTES TO FINANCIAL STATEMENTS

**Preferred Stocks**

Preferred stocks valued using prices from third-party pricing services generally use a discounted cash flow or a market approach to arrive at the security's fair value and are classified as Level 2. Preferred stocks classified as Level 3 are valued based on internal valuations where significant inputs are deemed to be unobservable.

**Common Stocks**

These securities are comprised of exchange traded U.S. and foreign common stock and mutual funds. The fair value of these securities is primarily based on unadjusted quoted prices in active markets that are readily and regularly available and are classified as Level 1. Common stocks that do not trade in an active market and are valued based on prices obtained from independent pricing vendors using unadjusted quoted prices in active markets for similar securities that are readily and regularly available are classified as level 2. Common stocks priced through an internal valuation where significant inputs are deemed to be unobservable, including securities issued by government organizations where fair value is fixed, are classified as Level 3. Prices from pricing services and broker quotes are validated on an ongoing basis to ensure the adequacy and reliability of the fair value measurement. The Company performs both quantitative and qualitative analysis of the prices including, initial and ongoing review of third-party pricing methodologies, back testing of recent trades, and a thorough review of pricing trends and statistics.

**Mortgage loans**

The estimated fair value of mortgage loans is determined using an income approach, based upon the present value of the expected cash flows discounted at an interpolated treasury yield plus a spread. The spread is based on management's judgment and assumptions, which takes into account matters such as property type, LTV and remaining term of each loan, etc. The spread is a significant component of the pricing inputs, and therefore, these investments are classified as Level 3.

**Cash, cash equivalents, short-term investments and investment income due and accrued**

Cash on hand and money market mutual funds are classified as Level 1. Cash overdrafts (i.e. outstanding checks) are classified as Level 2. Due to the short-term maturities of cash equivalents, short-term investments, and investment income due and accrued, carrying value approximates fair value and are classified as Level 2.

**Derivatives (including separate accounts liabilities)**

The fair value of derivative instruments is generally derived using valuation models that use an income approach, except for derivatives that are exchange-traded, which are valued using quoted prices in an active market. Where valuation models are used, the selection of a particular model depends upon the contractual terms of, and specific risks inherent in the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation model inputs include contractual terms, yield curves, foreign exchange rates, equity prices, credit curves, measures of volatility, and other factors.

**Derivatives - collateral (including separate accounts liabilities - collateral)**

The carrying value of these instruments approximates fair value since these assets and liabilities are generally short-term in nature and are classified as Level 2.

**Other invested assets**

Other invested assets are primarily comprised of tax credit investments, capital and surplus notes, residual tranches of securitizations, affiliated loans and other investments with characteristics of debt (this includes non-bond debt securities). The fair value of the affiliated loans and tax credit investments are derived using an income valuation approach, which is based on a discounted cash flow calculation using a discount rate that is determined internally and therefore classified as Level 3. Capital and surplus notes and other investments with characteristics of debt are primarily valued using prices from third-party pricing services that generally use a discounted cash-flow model or a market approach to arrive at fair value of the securities and are classified as Level 2. The fair value of the majority of investments in residual tranches of securitizations is derived using an income valuation approach, which is based on a discounted cash flow calculation that may or may not use observable inputs and therefore is classified as Level 3. Capital notes and non-bond debt securities were reclassified from bonds to other invested assets at 1/1/2025 for failing to meet the new definition of a bond under the principles-based bond definition (see Note 2 –Changes in Accounting Principles).

**Separate accounts assets (including separate accounts assets - collateral)**

Assets within the separate accounts are primarily invested in bonds, common stocks and preferred stocks. The fair value of investments in the separate accounts is calculated using the same procedures as are used for bonds and common stocks in the general account.

The separate accounts also invest in limited partnerships and hedge fund investments. The fair value of such partnerships is determined by reference to the limited partnership's NAV. The valuation of the hedge funds is based upon the hedge funds' latest financial statements adjusted for cash activity since that date and estimates of market valuations.

**Deposit fund contracts**

Fair values for annuities certain liabilities are estimated using discounted cash flow calculations based on interest rates currently being offered for similar contracts with maturities consistent with those remaining for the contracts being valued.

**Borrowed Money**

Borrowed money consists of a financing arrangement. The carrying value of the financing arrangement approximates fair value. At September 30, 2025, the Company had no repurchase agreements.

**Amounts payable for securities lending**

Amounts payable for securities lending consists of cash collateral received under securities lending agreements. The carrying value approximates fair value.

- D. If it is not practicable for an entity to estimate the fair value of that financial instrument or a class of financial instruments, the following shall be disclosed:

(1) - (2) Not applicable.

NOTES TO FINANCIAL STATEMENTS

E. The following table provides additional information for investments that are measured at fair value using NAV as a practical expedient, as allowed under authoritative guidance, for investments that meet specified criteria:

| 9/30/2025              |                        |                                 |                      |                                                |                          |
|------------------------|------------------------|---------------------------------|----------------------|------------------------------------------------|--------------------------|
| Category of Investment | Investment Strategy    | Fair Value Determined using NAV | Unfunded Commitments | Redemption Frequency                           | Redemption Notice Period |
| Hedge Fund             | Multi-Strategy         | \$ 2,304,529,153                | \$ —                 | Monthly, Quarterly, Semi-Annually and Annually | 180 days or less         |
| Private Equity         | Venture Capital        | 422,411,206                     | —                    | Quarterly                                      | 95 days or less          |
| Hedge Fund             | Fixed Income Arbitrage | 79,224,063                      | —                    | Quarterly                                      | 100 days or less         |
| Hedge Fund             | Long/Short Equity      | 6,536,338                       | —                    | Monthly                                        | 30 days                  |
| Mutual Fund            | Private Credit         | 23,499,995                      | —                    | Quarterly                                      | 6 months                 |
|                        |                        | <u>\$ 2,836,200,755</u>         | <u>\$ —</u>          |                                                |                          |

21. Other Items

A. Effective February 3, 2025, the Company entered into a flow reinsurance agreement on a quota share basis with Everlake Life Insurance Company ("Everlake"), an unaffiliated third-party life insurance company. Under the agreement, the Company has ceded all risks associated with certain fixed deferred annuity policies issued on or after the effective date, on a coinsurance with funds withheld basis. The Company receives an expense allowance and a ceding commission. For the nine months ended and as of September 30, 2025, the Company has ceded \$2,720,389,438 in premiums and \$2,749,194,658 in reserves under this agreement.

B. Not applicable.

C. Refer to Note 2 - *Changes in Accounting Principles* for the Company's disclosures on the adoption of the new PBBD.

The One Big Beautiful Bill Act ("OBBBA") was enacted on July 4, 2025. As of September 30, 2025, there was no material impact on the Company's surplus position as a result of OBBBA.

D - E. Not applicable.

F - G. No change.

H - I. Not applicable.

J. Reporting Net Negative (Disallowed) Interest Maintenance Reserve (IMR)

IMR was admitted up to 10% of the Company's adjusted Capital and Surplus. Capital and Surplus was adjusted to exclude net positive admitted goodwill, electronic data processing equipment and operating system software, admitted negative IMR, and net deferred tax assets. The computation of adjusted Capital and Surplus for purposes of negative IMR admissibility is included below:

NOTES TO FINANCIAL STATEMENTS

|                                                                                                                                                 | Total           | General Account | Insulated Separate Account | Non-Insulated Separate Account |

STATEMENT AS OF SEPTEMBER 30, 2025 OF THE NEW YORK LIFE INSURANCE AND ANNUITY CORPORATION

18.1 Have all the filing requirements of the Purposes and Procedures Manual of the NAIC Investment Analysis Office been followed? ..... Yes [ ] No [ X ]

18.2 If no, list exceptions:

[illegible]

- Filings for which we have not yet received the required documentation necessary for submission to the SVO:2.....

- Filings that have been submitted but not yet rated by the SVO:7 .....

19. By self-designating 5GI securities, the reporting entity is certifying the following elements for each self-designated 5GI security:

- a. Documentation necessary to permit a full credit analysis of the security does not exist or an NAIC CRP credit rating for an FE or PL security is not available.
- b. Issuer or obligor is current on all contracted interest and principal payments.
- c. The insurer has an actual expectation of ultimate payment of all contracted interest and principal.

Has the reporting entity self-designated 5GI securities? ..... Yes [ X ] No [ ]

20. By self-designating PLGI securities, the reporting entity is certifying the following elements of each self-designated PLGI security:

- The security was purchased prior to January 1, 2018.
- The reporting entity is holding capital commensurate with the NAIC Designation reported for the security.
- The NAIC Designation was derived from the credit rating assigned by an NAIC CRP in its legal capacity as a NRSRO which is shown on a current private letter rating held by the insurer and available for examination by state insurance regulators.
- The reporting entity is not permitted to share this credit rating of the PL security with the SVO.

Has the reporting entity self-designated PLGI securities? ..... Yes [ X ] No [ ]

21. By assigning FE to a Schedule BA non-registered private fund, the reporting entity is certifying the following elements of each self-designated FE fund:

- The shares were purchased prior to January 1, 2019.
- The reporting entity is holding capital commensurate with the NAIC Designation reported for the security.
- The security had a public credit rating(s) with annual surveillance assigned by an NAIC CRP in its legal capacity as an NRSRO prior to January 1, 2019.
- The fund only or predominantly holds bonds in its portfolio.
- The current reported NAIC Designation was derived from the public credit rating(s) with annual surveillance assigned by an NAIC CRP in its legal capacity as an NRSRO.
- The public credit rating(s) with annual surveillance assigned by an NAIC CRP has not lapsed.

Has the reporting entity assigned FE to Schedule BA non-registered private funds that complied with the above criteria? ..... Yes [ ] No [ X ]

(a) Active Status Counts:

1. L - Licensed or Chartered - Licensed insurance carrier or domiciled RRG.....53      4. Q - Qualified - Qualified or accredited reinsurer.....

2. R - Registered - Non-domiciled RRGs.....

3. E - Eligible - Reporting entities eligible or approved to write surplus lines in the state.....

5. N - None of the above - Not allowed to write business in the state..... 4

Direct Ordinary premiums and annuity considerations are allocated by states on the basis of the address to which the premium notice is sent. Corporate Owned Life Insurance and Single premiums are allocated to the residence of the insured, owner, or annuitant or the address designated as the one to which business communication should be sent.

\*Premium or annuities considerations waived under disability or other contract provisions are shown in one sum on Line 93, Columns 2, 3, 4, 5, 6, and 7. \*\*All US business must be allocated by state regardless of license status. Life Insurance and Multi Funded Annuity considerations included above are actual amounts received by the Company whereas in the Separate Account the amounts may differ because of fluctuations in unit values between the record date and processing date. NOTE: Schedule T should not be used as the basis for state guaranty association assessments.
