

## New York Life Flexible Premium Variable Annuity II Performance Summary

As of March 31, 2025

### Premium Based M&E Charge Structure

Performance data quoted represents past performance. Past performance is no guarantee of future results. Due to market volatility, current performance may be lower or higher than the figures shown. The investment return and the Accumulation Value of your policy will fluctuate so that a policy, when surrendered may be worth more or less than the premium payment(s). For current to the most recent month-end performance information, please call 1-800-598-2019 or visit [www.newyorklife.com](http://www.newyorklife.com).

All performance reflects the percentage change for the period shown with capital gains and dividends reinvested, and includes the Fund Company Expenses. An Annual Policy Service Charge of \$30 is not included in these charges, but will be deducted each year from the policy's Accumulation Value on the policy anniversary and upon surrender if on that date the Accumulation Value is less than \$50,000. The performance shown, therefore, would be slightly lower if your policy's Accumulation Value is less than \$50,000. Charges for any optional riders, if reflected, would reduce the performance shown.

Non-Standardized Performance ("Assuming No Surrender") does not reflect the deduction of Surrender Charges.

Standardized Performance ("Assuming Surrender") reflects the maximum Surrender Charge under the policy. The maximum Surrender Charge for each premium payment is 7%, declining to 1% by the 9th year after that premium payment has been in the policy, with no surrender charge thereafter.

Withdrawals and surrenders may be taxable transactions, and prior to age 59½, may be subject to a 10% IRS penalty (the penalty tax is increased to 25% in the case of a distribution from a SIMPLE IRA within the first two years of your participation in the SIMPLE IRA plan).

The Investment Divisions offered through the New York Life Flexible Premium Variable Annuity II and described herein are different from mutual funds that may have similar names but are available directly to the general public. Investment results may differ.

In most jurisdictions, the policy form number for the New York Life Flexible Premium Variable Annuity II is 210-594.

<sup>1</sup> The performance shown is for the indicated classes/shares only. These classes/shares impose a 12b-1 fee (except NYLI VP U.S. Government Money Market).

NYLI VP Small Cap Growth — Initial Class, NYLI VP Janus Henderson Balanced — Initial Class and NYLI VP Natural Resources — Initial Class. Performance for these classes/shares is lower than the returns for those classes/shares that do not impose a 12b-1 fee. Contact your NYLIFE Securities LLC Registered Representative or call 1-800-598-2019 for more information. Investment Division Inception Date is the date in which the Investment Division is first offered in the product. Portfolio Inception Date is the date that the Portfolio in which the Investment Division invests was first offered.

<sup>2</sup> Assumes no deduction for contingent deferred sales charge.

<sup>3</sup> Volatility/Risk Levels are assigned by New York Life. The Investment Divisions are grouped by risk classifications that reflect performance volatility based on Morningstar classifications as of December 31, 2020. Morningstar is a widely used independent research firm, which ranks mutual funds and other investment companies by overall performance, investment objectives and assets. Policy owners need to keep in mind, as applicable, that equity investments have been volatile historically. Investment options concentrated in bonds fluctuate in value in response to changes in interest rates. High-yield securities are generally considered speculative because they present a greater risk of loss than higher-quality debt securities and may be subject to greater price volatility. Non-US securities are subject to currency fluctuation risks and the risks of political and economic instability in the country of issuance. Investment options which are concentrated in economic sectors may be more volatile than more broadly diversified portfolios.

While there is no standard definition, generally "alternative" funds include nontraditional asset classes or strategies and/or illiquid assets. Alternative investments are speculative, can carry substantial risk, and may not be appropriate for all investors. For those investors who are able to bear greater risk in return for the opportunity they provide, alternative investments may be appropriate.

<sup>4</sup> The New York Life Flexible Premium Variable Annuity II was first offered for sale on May 1, 2011. Certain Portfolios existed prior to that date. The performance for NYLI

VP Series Fund, Inc. portfolios are based on Initial Class Portfolio Inception Date (where applicable). The performance for all other investment divisions is based on the Portfolio Inception Date reflected in this performance summary. All performance has been modified to reflect Separate Account and Fund annual expenses as if the policy had been available during the periods shown. The New York Life Flexible Premium Variable Annuity II- Premium Based M&E Charge Structure differs from many other variable annuity policies in that the Mortality and Expense Risk and Administrative Costs Charge (M&E) is calculated as a percentage of your Adjusted Premium Payments under the policy (excluding premiums allocated to the Fixed Account), rather than as percentage of Separate Account assets. Therefore, the 1.60% M&E charge is not reflected in the performance of the Investment Divisions, but will be deducted quarterly by reducing the number of Accumulation Units in the Investment Divisions you have selected. Since market performance is reflected through fluctuations in the value of an Accumulation Unit, owning fewer Accumulation Units over time will result in a gradual reduction in the value of the Policy, regardless of market performance, when compared to the result of a traditional charge structure. Please refer to your prospectus for more details. This version of the New York Life Flexible Premium Variable Annuity II invests in the New York Life Insurance and Annuity Corporation (NYLIAC) Separate Account IV.

<sup>5</sup> The S&P 500 Index is an unmanaged index and is widely regarded as the standard for measuring Large-Cap U.S. stock market performance. <sup>1</sup> The performance shown is for the indicated classes/shares only. These classes/shares impose a 12b-1 fee (except NYLI VP U.S. Government Money Market).

NYLI VP Small Cap Growth — Initial Class, NYLI VP Janus Henderson Balanced — Initial Class and NYLI VP Natural Resources — Initial Class. Performance for these classes/shares is lower than the returns for those classes/shares that do not impose a 12b-1 fee. Contact your NYLIFE Securities LLC Registered Representative or call 1-800-598-2019 for more information. Investment Division Inception Date is the date in which the Investment Division is first offered in the product. Portfolio Inception Date is the date that the Portfolio in which the Investment Division invests was first offered.

<sup>2</sup> Assumes no deduction for contingent deferred sales charge.

<sup>3</sup> Volatility/Risk Levels are assigned by New York Life. The Investment Divisions are grouped by risk classifications that reflect performance volatility based on Morningstar classifications as of December 31, 2020. Morningstar is a widely used independent research firm, which ranks mutual funds and other investment companies by overall performance, investment objectives and assets. Policy owners need to keep in mind, as applicable, that equity investments have been volatile historically. Investment options concentrated in bonds fluctuate in value in response to changes in interest rates. High-yield securities are generally considered speculative because they present a greater risk of loss than higher-quality debt securities and may be subject to greater price volatility. Non-US securities are subject to currency fluctuation risks and the risks of political and economic instability in the country of issuance. Investment options which are concentrated in economic sectors may be more volatile than more broadly diversified portfolios.

While there is no standard definition, generally "alternative" funds include nontraditional asset classes or strategies and/or illiquid assets. Alternative investments are speculative, can carry substantial risk, and may not be appropriate for all investors. For those investors who are able to bear greater risk in return for the opportunity they provide, alternative investments may be appropriate.

<sup>4</sup> The New York Life Flexible Premium Variable Annuity II was first offered for sale on May 1, 2011. Certain Portfolios existed prior to that date. The performance for NYLI

VP Series Fund, Inc. portfolios are based on Initial Class Portfolio Inception Date (where applicable). The performance for all other investment divisions is based on the Portfolio Inception Date reflected in this performance summary. All performance has been modified to reflect Separate Account and Fund annual expenses as if the policy had been available during the periods shown. The New York Life Flexible Premium Variable Annuity II- Premium Based M&E Charge Structure differs from many other variable annuity policies in that the Mortality and Expense Risk and Administrative Costs Charge (M&E) is calculated as a percentage of your Adjusted Premium Payments under the policy (excluding premiums allocated to the Fixed Account), rather than as percentage of Separate Account assets. Therefore, the 1.60% M&E charge is not reflected in the performance of the Investment Divisions, but will be deducted quarterly by reducing the number of Accumulation Units in the Investment Divisions you have selected. Since market performance is reflected through fluctuations in the value of an Accumulation Unit, owning fewer Accumulation Units over time will result in a gradual reduction in the value of the Policy, regardless of market performance, when compared to the result of a traditional charge structure. Please refer to your prospectus for more details. This version of the New York Life Flexible Premium Variable Annuity II invests in the New York Life Insurance and Annuity Corporation (NYLIAC) Separate Account IV.

<sup>5</sup> The S&P 500 Index is an unmanaged index and is widely regarded as the standard for measuring Large-Cap U.S. stock market performance.
