

## New York Life Select Variable Annuity Performance Summary

As of May 31, 2024

For policies purchased prior to June 2, 2003

Performance data quoted represents past performance. Past performance is no guarantee of future results. Due to market volatility, current performance may be lower or higher than the figures shown. The investment return and the Accumulation Value of your policy will fluctuate so that a policy, when surrendered, may be worth more or less than the premium payment(s). For current to the most recent month-end performance information, please call 1-800-598-2019 or visit [www.newyorklife.com](http://www.newyorklife.com).

All performance reflects the percentage change for the period shown with capital gains and dividends reinvested, and includes an annualized Mortality and Expense Risk and Administrative Costs Charge of 1.85% and Fund Company Expenses. An Annual Policy Service Charge of \$50 is not included, but will be deducted each year from the policy's Accumulation Value on the policy anniversary and upon surrender if on that date the Accumulation Value is less than \$100,000. The performance shown, therefore, would be slightly lower if your policy's Accumulation Value is less than \$100,000. Charges for any optional riders, if reflected, would reduce the performance shown.

Non-Standardized Performance ("Assuming No Surrender") does not reflect the deduction of Surrender Charges.

Standardized Performance ("Assuming Surrender") reflects the maximum Surrender Charge under the policy. The maximum Surrender Charge for each premium payment is 8%, declining to 7% by the 3rd year after that premium payment has been in the policy, with no surrender charge thereafter.

Withdrawals and surrenders may be taxable transactions, and prior to age 59½, may be subject to a 10% IRS penalty (the penalty tax is increased to 25% in the case of a distribution from a SIMPLE IRA within the first two years of your participation in the SIMPLE IRA plan).

The Investment Divisions offered through the New York Life Select Variable Annuity and described herein are different from mutual funds that may have similar names but are available directly to the public. Investment results may differ.

While there is no standard definition, generally "alternative" funds include nontraditional asset classes or strategies and/or illiquid assets. Alternative investments are speculative, can carry substantial risk, and may not be appropriate for all investors. For those investors who are able to bear greater risk in return for the opportunity they provide, alternative investments may be appropriate.

<sup>4</sup> Certain Portfolios existed prior to the date that they were added as Investment Divisions of the Separate Account. The performance for the MainStay VP Funds Trust Service Class portfolios is based on the Initial Class Portfolio (where applicable). The performance for all other Investment Divisions is based on the Portfolio Inception Date reflected in the performance summary. The hypothetical performance of the Investment Divisions was derived from the performance of the corresponding Portfolio, modified to reflect Separate Account and Fund annual expenses as if the policy had been available during the periods shown.
