

New York Life Premier Advisory Variable Annuity Performance Summary
As of April 30, 2025

Performance data quoted represents past performance. Past performance is no guarantee of future results. Due to market volatility, current performance may be lower or higher than the figures shown. The investment return and the Accumulation Value of your policy will fluctuate so that a policy, when surrendered may be worth more or less than the premium payment(s). For current to the most recent month-end performance information, please call 1-800-598-2019 or visit www.newyorklife.com.

All performance reflects the percentage change for the period shown, with capital gains and dividends reinvested and includes a maximum annualized Base Contract Charge of 0.40% and Fund Company Expenses. Charges for any optional riders, if reflected, would reduce the performance shown.

No Surrender Charges are assessed under the New York Life Premier Advisory Variable Annuity. Therefore, the values shown are applicable if the policy is surrendered or not surrendered.

Withdrawals and surrenders may be taxable transactions, and prior to age 59½, may be subject to a 10% IRS penalty (the penalty tax is increased to 25% in the case of a distribution from a SIMPLE IRA within the first two years of your participation in the SIMPLE IRA plan).

The Investment Divisions offered through the New York Life Premier Advisory Variable Annuity and described herein are different from mutual funds that may have similar names but are available directly to the general public. Investment results may differ.

In most jurisdictions, the policy form number for the New York Life Premier Advisory Variable Annuity is ICC21V-P01.

³ Volatility/Risk Levels are assigned by New York Life. The Investment Divisions are grouped by risk classifications that reflect performance volatility based on Morningstar classifications as of December 31, 2020. Morningstar is a widely used independent research firm, which ranks mutual funds and other investment companies by overall performance, investment objectives and assets. Policy owners need to keep in mind, as applicable, that equity investments have been volatile historically. Investment options concentrated in bonds fluctuate in value in response to changes in interest rates. High-yield securities are generally considered speculative because they present a greater risk of loss than higher-quality debt securities and may be subject to greater price volatility. Non-US securities are subject to currency fluctuation risks and the risks of political and economic instability in the country of issuance. Investment options which are concentrated in economic sectors may be more volatile than more broadly diversified portfolios.

While there is no standard definition, generally "alternative" funds include nontraditional asset classes or strategies and/or illiquid assets. Alternative investments are speculative, can carry substantial risk, and may not be appropriate for all investors. For those investors who are able to bear greater risk in return for the opportunity they provide, alternative investments may be appropriate.

⁴ The New York Life Premier Advisory Variable Annuity was first offered for sale on May 1, 2022. Certain Portfolios and Investment Divisions existed prior to the date. The performance for NYLI VP Series Fund, Inc. portfolios are based on the Initial Class Portfolio Inception Date (where applicable). The performance for all other investment divisions is based on the Portfolio Inception Date reflected in this performance summary. All performance has been modified to reflect Separate Account and Fund annual expenses as if the policy had been available during the periods shown. The New York Life Premier Advisory Variable Annuity invests in the New York Life Insurance and Annuity Corporation (NYLIAC) Separate Account III.

Although the Portfolio seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the Portfolio. The current yield more closely reflects the Portfolio's earnings than the total return figures shown. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.

Performance information less than 1 year has not been annualized.

Historically, certain fees have been assumed or reduced by some of the portfolios. Had these expenses not been assumed or reduced, the total return for these Investment Divisions would have been lower.

In order to purchase this variable annuity, the purchaser must be an advisory client of Eagle Strategies LLC (Eagle or the Investment Adviser), NYLIAC's affiliated investment adviser, and agree to pay an ongoing, asset-based fee (Advisory Fee) to Eagle for ongoing, investment advisory services relating to the policy. NYLIAC is not responsible for the investment advisory services provided by Eagle or its investment adviser representatives. The Advisory Fee that is charged by your Investment Adviser is covered in a separate agreement between you and the Investment Adviser, and is separate from, and in addition to, the fees and expenses that are described in the prospectus.

¹ The performance shown is for the indicated classes/shares only. These classes/shares impose a 12b-1 fee (except NYLI VP U.S. Government Money Market and

NYLI VP Natural Resources – Initial Class). Performance for these classes/shares is lower than the returns for those classes/shares that do not impose a 12b-1 fee.

Contact your NYLIFE Securities LLC Registered Representative or call 1-800-598-2019 for more information.

Investment Division Inception Date is the date in which the Investment Division is first offered in the product. Portfolio Inception Date is the date that the Portfolio in which the Investment Division invests was first offered.

² Assumes no deduction for contingent deferred sales charge.

³ Volatility/Risk Levels are assigned by New York Life. The Investment Divisions are grouped by risk classifications that reflect performance volatility based on Morningstar classifications as of December 31, 2020. Morningstar is a widely used independent research firm, which ranks mutual funds and other investment companies by overall performance, investment objectives and assets. Policy owners need to keep in mind, as applicable, that equity investments have been volatile historically. Investment options concentrated in bonds fluctuate in value in response to changes in interest rates. High-yield securities are generally considered speculative because they present a greater risk of loss than higher-quality debt securities and may be subject to greater price volatility. Non-US securities are subject to currency fluctuation risks and the risks of political and economic instability in the country of issuance. Investment options which are concentrated in economic sectors may be more volatile than more broadly diversified portfolios.

While there is no standard definition, generally "alternative" funds include nontraditional asset classes or strategies and/or illiquid assets. Alternative investments are speculative, can carry substantial risk, and may not be appropriate for all investors. For those investors who are able to bear greater risk in return for the opportunity they provide, alternative investments may be appropriate.

⁴ The New York Life Premier Advisory Variable Annuity was first offered for sale on May 1, 2022. Certain Portfolios and Investment Divisions existed prior to the date. The performance for NYLI VP Series Fund, Inc. portfolios are based on the Initial Class Portfolio Inception Date (where applicable). The performance for all other investment divisions is based on the Portfolio Inception Date reflected in this performance summary. All performance has been modified to reflect Separate Account and Fund annual expenses as if the policy had been available during the periods shown. The New York Life Premier Advisory Variable Annuity invests in the New York Life Insurance and Annuity Corporation (NYLIAC) Separate Account III.

⁵ The S&P 500 Index is an unmanaged index and is widely regarded as the standard for measuring Large-Cap U.S. stock market performance. "S&P 500" is a trademark of The McGraw-Hill Companies, Inc. and has been licensed for use by the NYLI VP S&P 500 Index Portfolio. The NYLI VP S&P 500 Index Portfolio is not sponsored, endorsed, sold or promoted by Standard & Poor's, and Standard & Poor's makes no representation regarding the advisability of investing in the NYLI VP S&P 500 Index Portfolio. Investors cannot directly purchase any index.

⁶ An Investment in the NYLI VP U.S. Government Money Market Portfolio is neither insured nor guaranteed by the Federal Deposit Insurance Corporation

or any other government agency and there can be no assurance that the Portfolio will be able to maintain a stable net asset value. Although the Portfolio seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the Portfolio. The current yield more closely reflects the Portfolio's earnings than the total return figures shown. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.

Performance information less than 1 year has not been annualized.

Historically, certain fees have been assumed or reduced by some of the portfolios. Had these expenses not been assumed or reduced, the total return for these Investment Divisions would have been lower.
