## Withdrawal options

**Each policy year, you may withdraw, with no surrender charges, the greatest of the three options below:**

- 10% of your account value as of the last policy anniversary (10% of the premium if the withdrawal is made in the first policy year) less any withdrawals already made during the policy year
- 10% of the account value at the time of withdrawal less any withdrawals already made during the policy year
- 100% of the gains at the time of withdrawal

**Withdrawals over and above the free withdrawal amount are subject to surrender charges as shown below** (based on each premium payment date):<sup>4</sup>

Years	1	2	3	4	5	6	7	8
% of payment	8	8	7	6	5	4	3	2

Withdrawals may be subject to ordinary income taxes and if made prior to age 59½ may be subject to a 10% IRS penalty tax (a 25% penalty tax in the case of a withdrawal from a SIMPLE IRA within the first two years).

## Death benefit

**Unless you annuitize your policy, the death benefit guarantees that your beneficiaries will receive the greater of:**

- The account value less any applicable loan balance and any premium credits applied in the 12 months prior to death.
- The money you invested (which is the total of all premiums paid) adjusted for any applicable loan balance, withdrawals or fees and charges.

### One-time death benefit step-up:

The opportunity for a one-time death benefit step-up is included in your policy at no additional charge. With completion of the initial surrender-charge period, your death benefit will be stepped up to the account value at that policy anniversary if that value is higher than the policy's initial death benefit as described on the previous page.

All guarantees, including death benefit payments, are dependent on the claims-paying ability of NYLIAC and do not apply to the investment performance or safety of the underlying Investment Divisions.

<sup>1</sup> Tax-qualified plans already provide tax deferral under the Internal Revenue Code, so the tax deferral of an annuity does not provide any additional tax advantages. As they offer both insurance and investment features, variable annuities are subject to additional fees to which other tax-qualified funding vehicles may not be subject. Pension/Keogh plans may require a higher initial premium.

<sup>2</sup> \$25 minimum per investment option. NYLIAC will accept additional premium payments until 12 months after the oldest owner reaches age 75 (unless otherwise limited by the terms of a particular plan).

<sup>3</sup> Please refer to the fund prospectuses for details regarding fund fees and expenses. Annual policy service charge is \$30, but is waived if the account value is \$100,000 or more as of the policy anniversary date or for policies that purchase the IPR 5.0 and cumulative first year premium(s) is greater than or equal to \$25,000.

<sup>4</sup> For NY policies applied for 11/13/2023 and later, the following surrender charge schedule applies: Year 1: 8%; Year 2: 8%; Year 3: 7%; Year 4: 6%; Year 5: 5%; Year 6: 4%; Year 7: 3%; Year 8+: 0%.

<sup>5</sup> See the prospectus for more details and availability.

<sup>6</sup> This policy is not designed as a vehicle for market timing. Accordingly, your right to make transfers under the policy is subject to limitation, if we determine, in our sole opinion, that the exercise of that right may disadvantage or potentially hurt the rights or interests of other policy owners. Please refer to your prospectus for details.

<sup>7</sup> With election of eDelivery, a one-time \$30 credit will be added to your policy. Available in states where permitted.

Variable annuities are long-term financial products used for retirement savings. There are fees, expenses, and risks associated with this policy. There are certain limitations and restrictions associated with variable annuities. For costs and complete details of coverage, speak to your financial professional. All guarantees, including death benefit payments, are dependent on the claims-paying ability of NYLIAC and do not apply to the investment performance or the safety of the underlying Investment Divisions in the variable annuity. Please be aware that assets allocated to the Investment Divisions are subject to market risks and will fluctuate in value.

This material is authorized for use by the general public only if preceded or accompanied by the product and fund prospectuses. Investors are asked to consider the investment objectives, risks, charges, and expenses of the investment carefully before investing. The prospectuses contain this and other information about the product and underlying investment options. Please read the prospectuses carefully before investing.

The account value is referred to as the "Accumulation Value" in the prospectus.
