<sup>1</sup> Tax-qualified plans already provide tax deferral under the Internal Revenue Code, so the tax deferral of an annuity does not provide any additional tax advantages. As they offer both insurance and investment features, variable annuities are subject to additional fees to which other tax-qualified funding vehicles may not be subject. Pension/Keogh plans may require a higher minimum initial premium.

<sup>2</sup> Joint annuitants must be spouses (except for policies issued in New York).

<sup>3</sup> \$25 minimum per investment option. NYLIAC will accept additional premium payments until 12 months after the oldest owner reaches age 75 (for policies issued to ages 76–80 until 12 months after the oldest owner reaches age 80 and the maximum aggregate amount of premium payments over all Premier VA and Premier VA II policies is \$1,000,000 without prior approval) unless otherwise limited by the terms of a particular plan.

Each policy year you may withdraw, with no surrender charges, the greatest of the three options below:

- 10% of your account value as of the last policy anniversary (10% of the premium if the withdrawal is made in the first policy year) less any withdrawals already made during the policy year.
- 10% of the account value at the time of withdrawal less any withdrawals already made during the policy year.
- 100% of the gains at the time of withdrawal.

**Issue ages 76–80**

Each policy year you may withdraw, with no surrender charges, the greatest of the three options below:

- 50% of your account value as of the last policy anniversary (50% of the premium if the withdrawal is made in the first policy year) less any withdrawals already made during the policy year.
- 50% of the account value at the time of withdrawal less any withdrawals already made during the policy year.

Withdrawals over and above the free withdrawal amount are subject to surrender charges as shown below:

Years	1	2	3	4	5	6	7
% of Payment	8	7	6	5	4	3	2

Withdrawals may be subject to ordinary income taxes and if made prior to age 59½ may be subject to a 10% IRS penalty tax (a 25% penalty tax in the case of a withdrawal from a SIMPLE IRA within the first two years).

<sup>4</sup> Please refer to the fund prospectuses for details regarding fund fees and expenses. Annual policy service charge is \$30, but is waived if the account value is \$100,000 or more as of the policy anniversary date.

- Death benefit** Unless you annuitize your policy, the death benefit guarantees that your beneficiaries will receive the greater of:
- The account value less any applicable loan balance.
  - The money you invested (which is the total of all premiums paid) adjusted for any outstanding loan balance, withdrawals, or fees and charges.

**One-time death benefit step-up:**

The opportunity for a one-time death benefit step-up is included in your policy at no additional charge. With completion of the initial surrender-charge period, your death benefit will be stepped up to the account value at that policy anniversary if that value is higher than the policy's initial death benefit as described above.

All guarantees, including death benefit payments, are dependent on the claims-paying ability of NYLIAC and do not apply to the investment performance or safety of the underlying Investment Divisions.
