About the 2017 Board of Directors Election

**Q What does the Board of Directors do?**
The Board of Directors exercises general oversight of the management of the Company’s business. Its primary responsibility is to ensure that the Company is maintained and operated for the benefit of its policyholders.

**Q What criteria are used to select and nominate director candidates?**
The Board selects director candidates based on many factors, including diversity of experience, willingness and ability to devote appropriate time to the duties of a director, and ability to exercise sound judgment. Director candidates must possess the highest personal and professional ethics, integrity, and values.

The Board strives to represent director diversity along a multitude of dimensions, including functional and subject matter expertise, professional and industry experience, race, ethnicity, age, and gender. The Board’s oversight capabilities are further enhanced by the varied tenures of its directors, which enable the Company to benefit from the fresh perspectives of its newer members and the experience of its longer tenured members. The directors each contribute unique capabilities and perspectives that, individually and collectively, enhance the Board’s ability as a governing body.

**Q How often is the election held?**
The election is held once a year on the second Wednesday in April.

**Q Who is eligible to vote?**
Qualified voters are New York Life policyholders who have had a policy in force for at least one year as of the day of the election.

**Q I own more than one New York Life policy. Why did I receive only one ballot with only one policy number printed on it?**
In accordance with the insurance laws of New York State, each policyholder is entitled to one vote regardless of the number of policies owned. In the interest of administrative efficiency, only one policy number is listed on each ballot, regardless of the number owned.
